Medical Disclaimers

(1) All Plan Designs with an effective date of 1/1/14 or greater will have all member cost share apply to the Medical OOP maximum, including Pharmacy.

If the employer offer consists of more than one medical plan, we require the policy year, or calendar year basis selection be the same for each sold policy if the employees have the option to choose from among the plans offered.

Engineering Companies with the SIC of 8711 may be eligible for discounted medical rates through the American Council of Engineering Companies (ACEC) Life and Health Trust. Restaurants and Hotels with SIC of 5812, 5813, 7000, 7011, 7012, or 7993 may also be eligible for discounted rates (medical 51+, specialty 2-99) through the National Restaurant Association. Please contact your account executive for additional details.

Starting with 2014 effective dates, all pharmacy plans include an ancillary charge program (also known as a generic pharmacy program). This type of pharmacy program includes out of pocket expenses when a member fills a brand name or higher tier generic prescription but there is a chemically equivalent lower tier brand or generic available.

Dual Option is available in this state. Please refer to the unitedeservices.com Product section for a detailed description document.

Rates are valid through the end of the proposal effective date month.

When requested with quotes, Benefit Summaries are currently available in a calendar year version only, however, some plan designs may be available as either Calendar or Policy Year versions.

Premium rates and/or product forms included herein are subject to approval by regulators. If the rates or product forms offered herein are subsequently modified by regulators we will immediately advise you of the change in plan design and retroactively adjust premium in subsequent billings, in accordance with applicable law.

For quote effective dates of 1/1/15 and beyond, the rate output generated is based on composite rates (tiers) for 10-50 life groups and table rates (member level) for 1-9 life groups. These defaults were established based on historical small employer preferences. However, small employers may request and receive either composite or table rates. To request rate structure different than the standard default, please contact your UnitedHealthcare Representative for groups of 1-9. For groups of 10-50, the alternate rate structure can be accessed online via United eServices.

UnitedHealthcare's Packaged Savings Program allows you the opportunity to receive an administrative credit on your monthly invoice when you purchase eligible UnitedHealthcare specialty products with your medical coverage. Per-employee per-month administrative savings apply based on the number of enrolled medical subscribers and will continue for a period of 12 months as long as eligible medical and specialty benefits remain in-force. Contact your UnitedHealthcare representative to discuss plan and program availability. UnitedHealth Group Incorporated owns the trademark for Packaged Savings. Used by permission of UnitedHealth Group Incorporated.

This premium may include state and federal taxes and fees.

The A-2 medical plans are PacifiCare plans. HMO products are underwritten by PacifiCare of Arizona and Insurance products are underwritten by United Health Insurance Company and Pacificare Life and Health Insurance Company. Please refer to plan documents for specific carrier information.

Medicare Part D regulations require employers to provide creditable coverage notification to Medicare eligible participants of their prescription drug plan, as well as to Centers for Medicare & Medicaid Services (CMS) at least once a year at specified times. Please contact your UnitedHealthcare representative for information on the support and services UnitedHealthcare can provide employers to help them meet these requirements.

(10) (s) This plan features split physician office visit copayments. Enrollees in these plans will pay a higher copayment when they see specialists than when they see primary care physicians.

Dental Disclaimers

(1) For certain dental plans the Endodontic, Periodontic and Oral Surgery benefits may, as a group or individually, be class shifted between Class II and Class III coinsurance rates. For more information, please see the Dental Benefit Summary for the specific plan setup.

Agents may receive commissions, bonuses and other compensation for selling the products presented in this proposal. The cost of this compensation may be directly or indirectly reflected in the premium or fees for those products. Contact your agent if you have questions on their compensation for the products in this proposal.

Product availability may vary based upon group size and prior dental coverage.

Information about HRA/HSA Contribution Requirements under the Affordable Care Act (ACA)

Our goal is to help you understand how the contributions you make to your employees' HSAs and integrated HRAs can affect the actuarial value of your health plan. Under the Affordable Care Act (ACA), plan sponsors are required to offer health coverage to their employees that falls within one of four metallic levels of coverage. Each metallic level has its own range of permitted actuarial values. UnitedHealthcare, as a health insurance issuer, is also obligated to only offer health coverage that falls within the four metallic levels.

It is important to understand that the amount of the contributions that you make to your employees' HSAs or integrated HRAs have an impact on the actuarial value of every plan design we offer to you. Further, with respect to an integrated HRA, the available contribution ranges shown in this proposal/renewal packet are specific to the particular type of HRA (Standard or Select, see definitions below) we have available in your market. We will gladly work with you to make sure you understand the HRA plans available in your market.

Why this is important

Making sure that the employer contribution to HSAs or HRAs fall into the designated dollar amount ranges helps ensure that your plan meets the actuarial value for the metallic level of coverage you have elected for your health plan offering and that you maintain compliance with the requirements of the ACA. Failing to make the contributions as indicated may mean that your selected plan falls below the actuarial value for the metallic level while funding at an amount above may mean the actuarial value for the metallic level has been exceeded. In either circumstance your plan will not be compliant with the requirements of the ACA.

We are offering you the plan you have chosen for your employees based on the understanding that your contributions to your employees' HSA or HRA will be made as set forth in the proposal for new customers or, for existing customers, in the renewal plan documents. In addition, contributions must be available to employees on the first day of the plan year.

If you do not intend to make the contributions or intend to change the amount or timing of the contributions, it may mean that your plans will not fall within the appropriate metallic level and thus may not be compliant with the ACA. We want to ensure that does not happen so are asking that you please contact your UnitedHealthcare representative to let them know of any changes to your plan or to the amount and/or timing of the HSA/HRA contributions you intend to make.

Please take these steps to ensure compliance

- 1. If you are a new customer, please review the contribution amounts for the plan you have selected. These amounts are shown in your final proposal from UnitedHealthcare. If you are an existing customer, please review the contribution amounts that are shown in your renewal plan documents. If you do not have the appropriate document, please contact your UnitedHealthcare representative, who can provide the information to you.
- 2. Please make the required HSA/HRA contribution so that it is available on the first day of the plan year.
- **3.** For HRA plans, please ensure that your HRA plan design is such that HRA amounts may only be used to reimburse employees for cost sharing amounts under your plan.
- **4.** Please note your HRA must adhere to the UnitedHealthcare HRA Standard or Select product design available in your market. (See description below.)
- **5.** Please inform us at least 30 days in advance of any plan changes to your plan.

We are committed to ensuring the ACA is implemented successfully and that you, as our customer, know the necessary actions to take. We are here to help you throughout this process, so if you have questions please contact your UnitedHealthcare representative.

UnitedHealthcare Standard HRA plans are available in Alabama, Arizona, Arkansas, Connecticut, Delaware, Florida, Georgia, Idaho, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Utah, Virginia, Washington, and West Virginia. Standard HRAs (also known as first dollar HRAs) are designed to pay 100% of the initial claims until the HRA is depleted. The member is then responsible for payment of additional claims until the deductible is satisfied. The maximum HRA contribution amount is equal to 50% of the deductible.

UnitedHealthcare Select HRA plans are available in California, Colorado, Iowa, Illinois, Indiana, Kansas, Kentucky, Michigan, Missouri, New Mexico, Ohio, Oklahoma, Oregon, Texas, Wisconsin and Wyoming, as Shared or Split. Shared HRA plans pay a percentage of first dollar qualifying expenses up to the HRA contribution limit. The employee is responsible for the remaining percentage of first dollar qualifying expenses. Split Deductible HRA (also called second dollar) plans are designed so the employee is responsible for the first 50% of expenses applying to the deductible; then the Employer funded HRA pays for subsequent qualifying expenses up to the HRA contribution limit. The maximum Employer HRA funding for both Shared and Split Deductible is equal to 50% of the deductible.
