ABOUT ME

I am a designer & illustrator with a passion for branding. Over the past 10+ years I have gained valuable experience in media, social media, branding, print and sales. My work has been primarily focused on effective branding efforts in print and web. My skills include web, logo, layout and marketing material. I work with Mac and PC with the latest software when possible.

My design style can be described as simple, modern, fun & bold. I enjoy improving and developing effective strategies for optimal response.

I started my own design company some years ago called Bluberri Designs where I do occasional freelance projects. My latest project is BluWhirl Apps where I am the UX Designer for mobile apps.

As for my work style, I am flexible, versatile and knowledgeable about design and give my all in each project I undertake.
