Middle Percussion Group Auditions!

Snare

Snare excerpt – It is very important to have a steady pulse and to make each stroke sound the same. We are drummers and must have a good sense of time. Play this at a tempo that is most comfortable for you, points will be awarded for sound quality and rhythmic accuracy, not speed!

Mallets

Mallet Excerpt – This exercise can be played on any mallet instrument you have access to (bells, xylophone, marimba). Try to make every stroke sound the same no matter where on the instrument you are and always play with good time. Big bonus points will be given if you can play this in other keys as well! ALWAYS PRACTICE WITH A METRENOME!
