

A collage of various fabric textures. The top left features a piece of brown leather with a pebbled grain. Below it is a vibrant blue, textured wool fabric. To the right is a light-colored, possibly white or cream, wool fabric with a soft, fibrous texture. The bottom left corner shows a dark, almost black, fur-like material with a dense, shaggy texture. The overall composition is layered and tactile.

Christa Louise creations are unique fusions of color and texture. Using an all-natural technique involving only soap, water, and our hands, we bind silk & the softest merino wool into luxurious scarves & wraps.

Each piece is one-of-a-kind & has been meticulously hand-crafted by village women in Mexico who have been taught this technique.

Purchasing a Christa Louise design generates employment and opportunities for these women.
