MULTIMEDIA AND DIGITAL MEDIA FOR LEARNING (EDLT425)
WIKI/BLOG/WEBSITE ASSIGNMENT & RUBRIC LECTURER: DR. ANDRE P. NEELY

Wiki/Blog/Website Assignment **10gpts****

Create a website at Weebly.com or Wix.com. Choose the private setting for your site. The site should be attractive, coherent, and well organized.   The site should be headed **"EDLT425: "MyName" favorite multimedia and digital media learning resources."** Below the heading place an introductory paragraph about the site. **Place definitions of the Spatial Contiguity Principle and the Temporal Contiguity Principle on the Site's cover page.** Provide the relevant heading for each link above the respective link. Number and label your links in a manner consistent with the sections below. The site should be aesthetically pleasing. Attractively utilize one welcome and one good bye animation at this site. Take 10 pictures of significant local landmarks. Take five pictures of people in action locally. Place all of these images in an electronic folder named "Pictures by MyName" and post these pictures attractively on your website and in the Supplementary Folder.   (-0.5pt for each not done)

Your site should contain section "A" below. Additionally, sections "A & B" should be placed in a MS Word document.   Save the document both as a MS Word document and an .HTM or .HTML document.
