# A Biblical View of Time: Shifting from Chronos to Kairos

## *Ephesians 5:15-16*

Such is the case with *chronos* and *kairos*. Both are Greek words which mean *time*, but they imply different things.

Chronos refers to minutes and seconds. It refers to time as a measurable resource.

Kairos is the word used for time in Ephesians 5:16 (which I examined in more detail [here](#)). Kairos means an appointed time, an opportune moment, or a due season.

## The Chronos Outlook

We tend to think of our time in a chronos mindset. We think of having 24 hours in a day. We define our workweeks by the number of hours that we work. We have a list of things to do and only so much time to get everything done.

Being conscious of our minutes and seconds is a good thing. We should **number our days** as the scripture says. Our time on earth is so brief, and we want to be good stewards of every second that we have to glorify God on this earth.

But ironically, this chronos mindset can make us miss what Paul is saying in Ephesians 5. Paul instructs us to redeem the kairos – to pay attention and take advantage of the opportune times and seasons.

## A Kairos View

We only have such a brief opportunity to shepherd our kids when they're still young children. When a friend is experiencing pain, we have a brief window of time in which to reach out to them.

When friends of ours were going through a rough spot in their marriage, I went to lunch with the husband. Yes, it took up some of my chronos time. But I was able to share the gospel with this unsaved friend of mine, we prayed together, and he expressed an interest in learning more about Christ. It was a kairos opportunity.

## Changing Our Mindset

This requires us to make a mental shift. Instead of looking at our time as grains of sand slipping through an hourglass, we view our time as opportunities flying by. Instead of viewing our time as seconds ticking by, we realize that not every second holds the same worth.

**Some moments are more valuable than other moments.** The five minutes that I have a chance to share the gospel with an unsaved friend is a more valuable five minutes than when I'm processing my Email. I have to take advantage of my opportunities.

Instead the effective steward is a focused watchman whose senses are attuned to the slightest hint of an opportunity. He's a hawk on the lookout. **From Life of a Steward, Loren Pinilis**

### Will Heaven be big?

*Yes, but with a different kind of bigness. Now, space contains us, confines us, defines us. But we can transform space into place by humanizing it, spiritualizing it. A house becomes a home, a space becomes a place, by our living in it. Heaven will be both as intimate and as unconfining as our spirits want.*

*No one will think it too small or too large. In a sense, it will be in us rather than we in it—not in the sense that it will be subjective, but in the sense in which stage settings and props are in a play, or part of a play, rather than the play being in or part of the setting. – Christianity Today*
