## Story

This year I turn 35 and I have so much to be grateful for. We all have challenges but everyone has something to be grateful for. This year for my birthday I am hoping to support friends of mine on their journey for answers. Kate and Bo are some of most dedicated parents I have ever known and I am constantly in awe of their strength. Their daughter Tess suffers from an extremely rare disease. As a new parent I can't even imagine how difficult the unknown would be when it came to my child.

Please join me in supporting a good cause. I'm raising money for Foundation for USP7-Related Diseases and your contribution will make an impact, whether you donate \$5 or \$500. Every little bit helps. Thank you for your support. I've included information about Foundation for USP7-Related Diseases below.

Our mission is to cure USP7-related diseases. We do this by funding research and identifying more patients.
