

1. What are specific policies you would implement to help reduce Corner Brook's greenhouse gas emissions?

2. What are your ideas for how the City of Corner Brook can support food security and sustainability in western Newfoundland?

3. How do you think waste management should be improved in Corner Brook?

4. If you are mayor, how do you plan to consult/work with environmental groups in the City?

5. Do you have suggestions on how to contribute to sustainable transportation Corner Brook, including improvements to the public transit system, and making the city more cyclist- and pedestrian-friendly?

6. Currently the City does not have any bylaws around wind or solar energy generation. Would you push to have those policies developed so that people can avail of the net metering opportunity in Corner Brook?

7. How would you suggest that Corner Brook achieve compliance with federal waste water regulations?
