Material Handling is a key step between preparation and completion.

80/20's T-slotted aluminum framing helps you bridge that gap with safe and durable applications that carry the load of your specific project.

When fit to your needs 80/20 material handling provides:

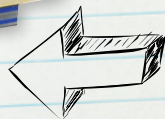

- modularity
- durability
- mobility
- ergonomics
- easy assembly

Let 80/20 help you with material handling

45 Degree Support
Give added support
for heavy-duty loads

Clean, colorful finish
with T-slot cover

Heavy-Duty Handling

Bulk up your material handling
frame for heavy loads. Our
vast family of casters, degree
supports, and larger series
profiles add stability.

Abrasion-resistant
UHMW-PE surface

Leveling Caster

Take your project from
mobile to stationary

Light-Duty Handling

Maintain your frame's strength by utilizing either 80/20's lite or new ultra-lite profiles.

Use colored panels for quick visuals

Dynamic Pivots
For added mobility and versatility

Keep safety in mind, at work and home.

Tool Storage

Mount tools
& equipment
directly to
profiles

Organize
your tools

Lift-Off Hinge
Easily add & remove
doors and panels

Value Add Fabrication Services

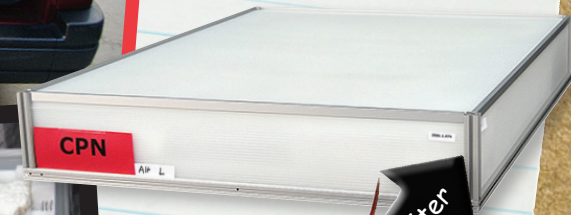

Enclosures

Protect your contents by adding
80/20 locking door enclosures.

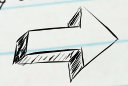

Before

After

With the help of 80/20's value
add frame fabrication services
your project can be ready when it
arrives at your door.

Ergonomic Solutions

Control steering by adding handles

Design frames ergonomically correct to height and size

Finish off ends with an endcap

8020.net
260-248-8030

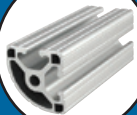

Add brake casters for safety, mobility

Build to your ergonomic needs

Specialty Profile

Add rounded corners for a smooth, clean finish

Workspace Organization

Improve efficiency and clutter in the workplace with organizational storage.

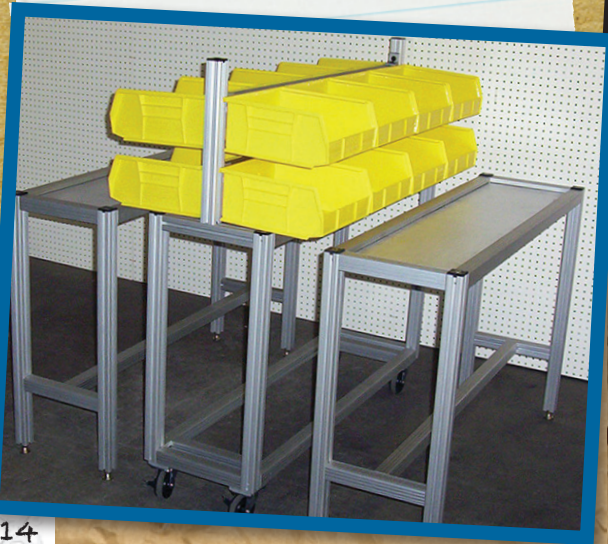

Easily organize parts and pieces

Part Organization

Use storage bins to organize your workspace.

Part bins are easily mounted to T-slotted profiles.

Part Bins

Versatile with six sizes and three colors available

Color code for processes and visuals

Sort, file and
divide for
organization

Choose from several
types of wire mesh panels
and aluminum plates

Stocked panel types
include acrylic, HDPE,
polycarbonate, expanded
PVC, and more.

Dividers

Dividers

Store by size,
shape or type

Material handling can also be found in
the office space. →

↓ Use miter cuts to create unique
ways to store things differently.

Twin Wall Polycarbonate
Make doors or walls
partially see-through

Select from
80/20's large
inventory of
panels for
table tops and
wire mesh
for guarding.

Mobile Workstations

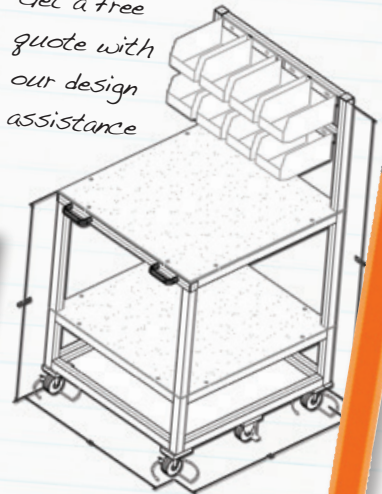

Provide ease
of motion
with dynamic
pivots

With hundreds of
accessories to
choose from you
can customize
your frame to
fulfill any need.

Store-away
trays with
gliders and
specialty
profiles

Storage Shelving

*Size, shape or load doesn't matter.
80/20 makes anything possible
with modular aluminum framing.*

Anchor Fastener

Get the most strength out of this fastening method

HT Series Profiles

Faster assembly with
cost-effective profiles

↑ *Storage can be as simple as
four corners and a shelf.*

↔ *Protect sensitive materials
with proper handling*

Get the right angle

Heavy-duty structure

Any profile,
any size to fit
your need

*Modularity
at its finest
both large
and small.*

Storage Shelving

Gliding
shelves
provide
easier
access to
stored
materials

Door Handle

Make handling easier

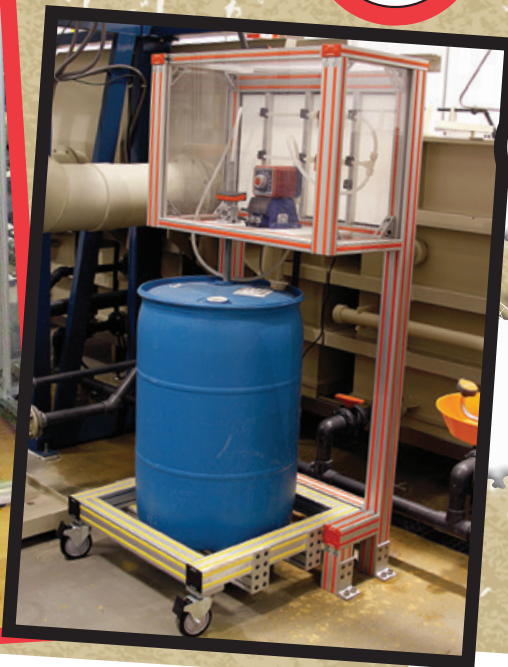

Storage Shelving

Custom Machining

Don't have a part you need?
Let our custom machining
department create it.

Unique Storage

Handle heavy and odd shaped materials with a custom solution

Get the full story and design files at

8020.net/Sports_Equipment_Rack.asp

Secure components directly to the T-slot with corner brackets

Custom fit modular framing

Make your application mobile with casters

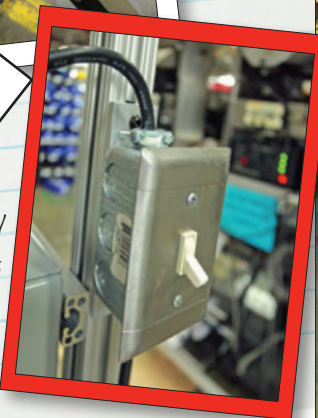

Mount wires and cords to profiles

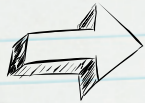

Automation

Add on electrical elements

T-slotted
profiles are
perfect for
mounting
conveyor
components.

The endless
possibilities

Joining Plate

Attach your profile to
existing structures

Lean Material
Handling

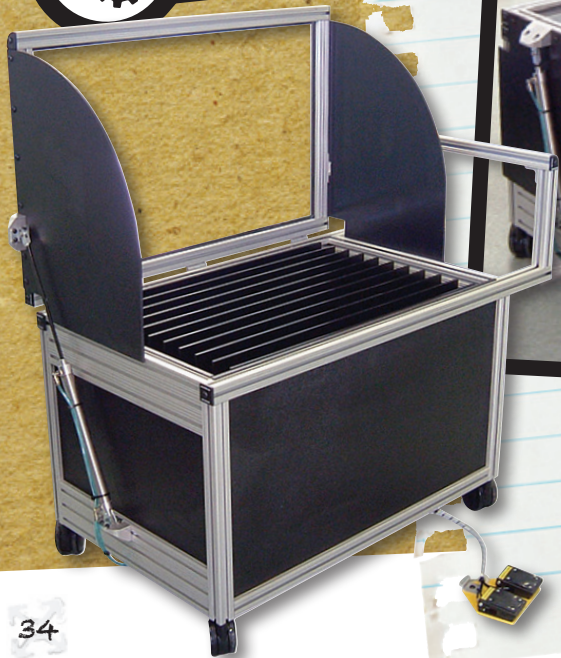

Streamline your material
handling with faster, efficient
ways to operate.

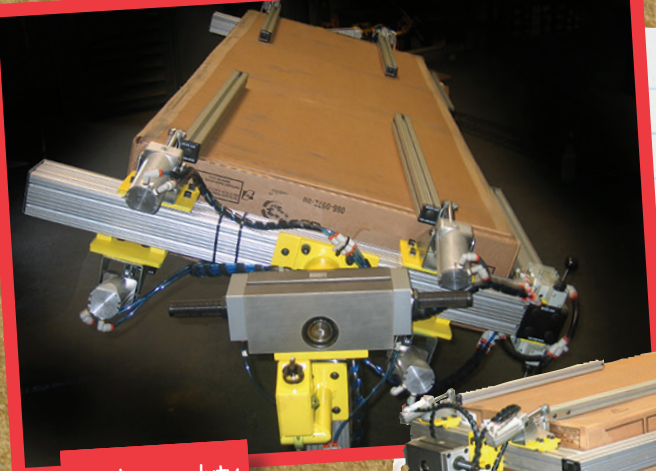

Pneumatics

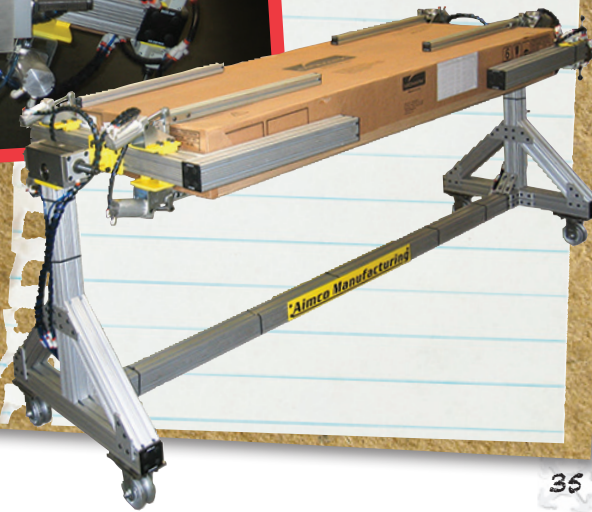

Take a simple application made with 80/20 stuff and enhance it with compressed air or other pneumatic components.

Combine pneumatics and T-slotted profiles to create custom solutions.

Let heavy-duty T-slot profiles carry the load

Material Rollers

Roll your mobile conveyors right up to the assembly line

Roll heavy loads easily

Let gravity rollers do the work

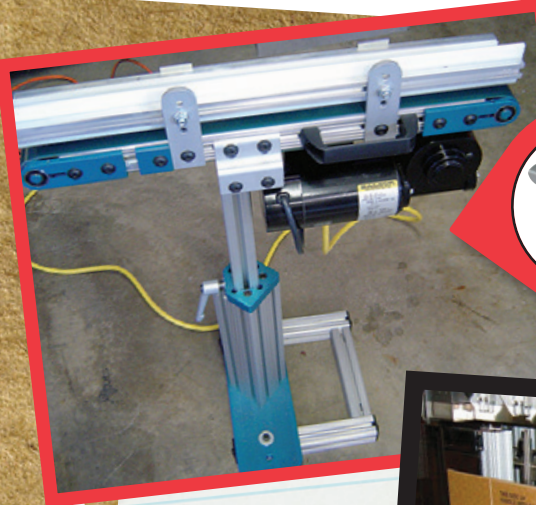

Run wires
in the
T-slot

Automation

Production increases wherever you find automation. Incorporate 80/20 parts with automation to improve workflow.

Brake Kit
Secure profile in place
with locking brakes

Build 80/20 framing within and around your machinery for guarding, handling and versatility in your application's process.

HT Series

HT Series goes hand-in-hand with material handling. It's pre-manufactured access holes allow for modularity and easy assembly.

Whether it's a mobile cart (left) or gasket reel (right), HT Series makes material handling quick and easy.

Combine HT Series and T-slot in your project

Use hand tools to make light-duty office organizers out of the Quick Frame system. Designed to be economic and easy to assembly, Quick Frame connects with nylon connectors

Quick Frame

Benefits of Quick Frame:

- * easy to use
- * bottless assembly
- * no machining

QF Connector
No hardware needed with Quick Frame

HT Series is great for both
in-home and industrial solutions.

Built durable to handle the
vibration of the open road

Truck rack
easily fits
with HT
Series

HT Series

Material Storage

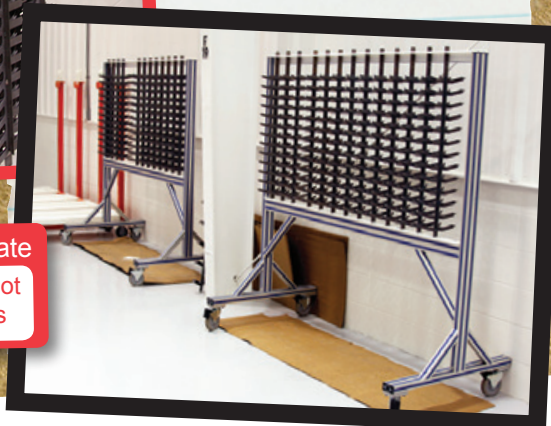

Innovation

Special needs call for specific solutions. 80/20's modularity can be utilized in any fashion.

Pressure Manifold Plate

Run air lines within T-slot profiles for easy access

The stability of T-slotted profiles is perfect for camera mounts.

Got a lot of something, no problem
