

## Sales Tax and Discount Assignment

Name: \_\_\_\_\_

**Objectives:**

1. Solve a given problem involving percents.
2. Students will be expected to demonstrate an understanding of, and solve problems involving percents greater than or equal to 0%.

***Recently you were the winner of a \$5000.00 shopping spree for Dartmouth Crossing. It is time to spend some money!!!***

**Your Task:**

- Spend as much of the \$5000.00 as you possibly can without going over. Final total must be between \$4995.00 and \$5000.00
- Ensure you have calculated all taxes on each item.
- Use the chart below to list each item you have purchased, the pre-tax cost, the tax amount and the total cost.
- Cut out each item you purchase and glue it to your blue sheet. Give your blue sheet a catchy name.
- No one item may cost more than \$1200.00 after tax.
- You must purchase exactly 10 items.

**Calculation Chart**

Item	Cost (Pre-tax)	Tax	Total
<b>TOTALS</b>
