

Streamline Purchasing With **emapp™**

What is emapp™?

- emapp™ (emarketplace and purchasing portal) is an online marketplace and procurement system
- Uses a familiar online shopping interface, so little training is required
- Allows easy price comparisons between suppliers
- Captures your entire workflow and executes it automatically

Brought to you by Afaxys, a first-of-its-kind healthcare company to ensure that the public health sector has reliable access to affordable, quality, FDA-approved products and services they need to care for their patients.

emapp™ was built based on our customers' needs and ideas for a streamlined purchasing process to help you:

Save time
and money

Standardize
processes

See more
patients

Increase time spent
with patients

Benefits of emapp™

Tedious tasks made simple
Easier access; simplified, improved purchasing process

More tools = more efficiency
Prior orders are saved to expedite routine orders and encourage formulary adherence

Manage the process
Use the dashboard and reports to track requisitions, approvals, and invoices

Stop chasing deals
Find great deals on quality products more efficiently

Compliance support
OMB grant bidding validation, 340B ordering access validation, and DSCSA compliance

Know what you received
An advanced receiving component allows you to receive orders and tag lot numbers
