

## **Grace Life Workshop**

The purpose of the Workshop is to teach the participants to effectively share the Biblical truths of our union with Christ through the use of the circle and line diagrams used in an Exchanged Life Conference.

For those who have come to know the dynamic life-change that comes through knowing, by experience, our union with Christ become aware of their need for further training. The workshop is an opportunity to further apply the truth of our identity in Christ through the personal experience of our union with Christ.

The Workshop is specifically designed to provide the opportunity to learn and practice sharing the Exchanged Life diagrams through the role play of discipling sessions with co-participants. You will both learn and practice listening techniques in order to pinpoint an individual's spiritual need, and discern where they are on their spiritual journey.

The objective of the Workshop is to provide through the dynamics of this process an enriched spiritual experience for each participant. The ample opportunity for personal sharing results in personal growth which facilitates the development of new friendships and deepens existing relationships.

A prerequisite for the Workshop is that you must have attended The **Exchanged Life Conference**.

*The Workshop is thirty hours of teaching and interactive role playing which usually takes place over three days and one evening.*
