

# Applied Manufacturing Technology Pathway Certification

## Why should my company offer a career pathway?

- It makes you a more attractive employer
- It accelerates skills attainment
- It saves you money\*\*

The credential is a **standard instruction set** and **evaluation process** (which is continuously improved) so that employers readily understand the skill set of an applicant, therefore **reducing the cost of hire**.

## No Cost Training \*

that doesn't interfere with production scheduling

## No Cost Credentials

validate and document skills and competencies

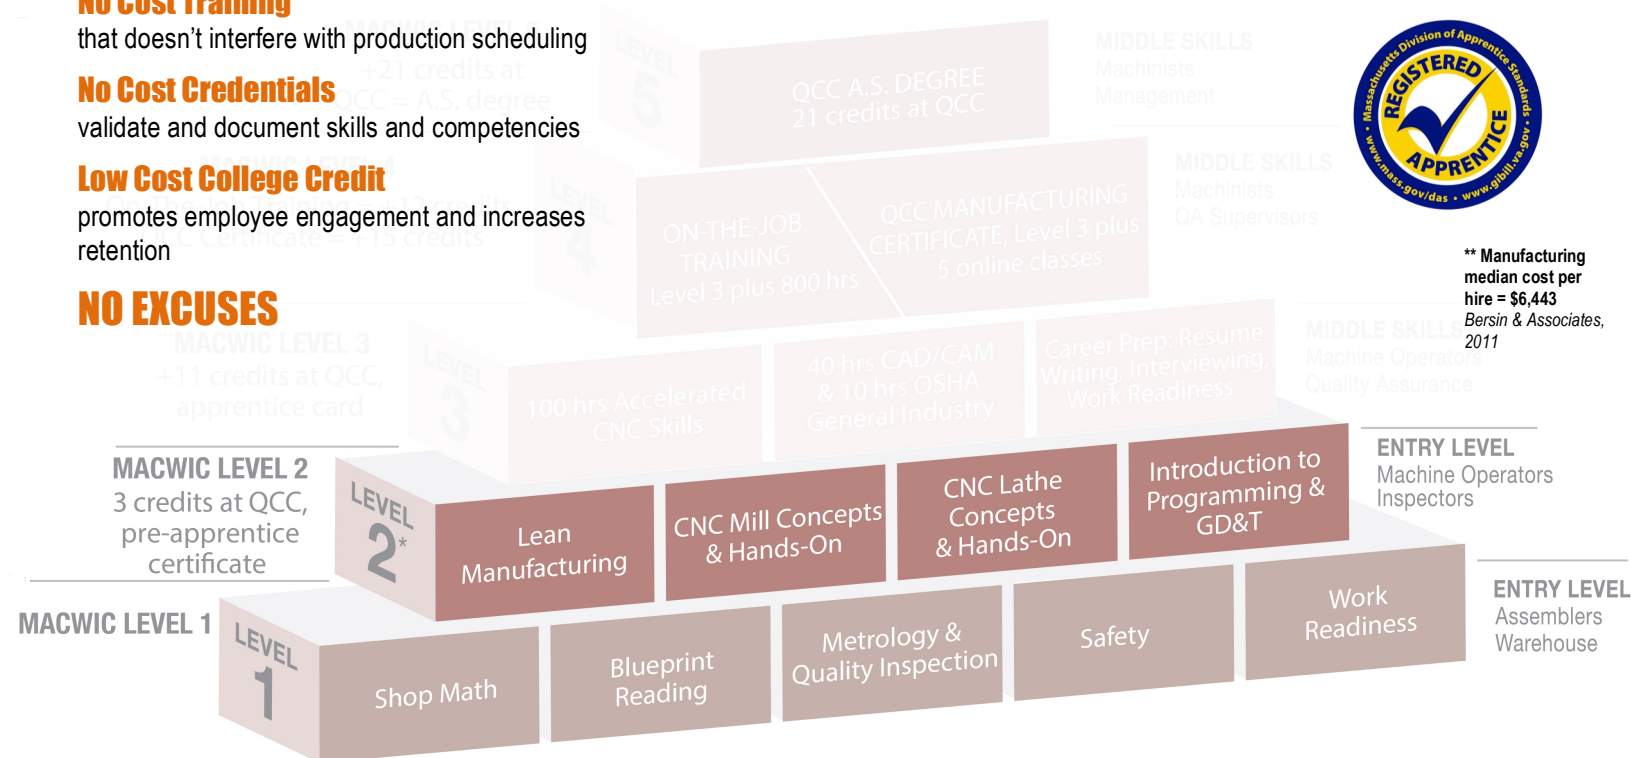

## Low Cost College Credit

promotes employee engagement and increases retention

## NO EXCUSES

## What is [www.learnCNCskills.com](http://www.learnCNCskills.com)?

- Online, on-demand training program
- Basic Manufacturing Skills (Level 1) & CNC Machine Operation (Level 2)
- Modular – train only in the competencies you need most
- 24/7 anytime, anywhere access
- Supports competencies tested in MACWIC Levels 1 & 2
- Level 2 includes 3D, interactive Virtual Emulator

## Learning Productivity Tool

Used by thousands of CNC machining customers, the LearnCNC™ Virtual Training Environment combines powerful “flight simulator” technology with a flexible internet-based learning content management system to deliver a truly innovative learning experience. Unlimited access to train and rehearse in the Virtual Training Environment enables learners to develop greater confidence and proficiency prior to operating equipment and performing actual procedures.

## Online Learning Courses & Virtual 3D CNC Machines

Mill and Lathe CNC online courses provide the learner with comprehensive learning content, interactive exercises and virtual CNC panels and 3D machines.

## Step-by-Step Instructions to Receive Access to LearnCNC

1. Employer joins or confirms membership in MACWIC  
*Membership info can be found at [www.macwic.org](http://www.macwic.org)*  
*NO COST to join*
2. Employee creates account at [www.learnCNCskills.com](http://www.learnCNCskills.com)
3. Adds Level 1 and/or Level 2 classes to cart  
*NO COST for employees of MACWIC member companies*
4. Receives login information via email
5. Begins training

See [www.learnCNCskills.com](http://www.learnCNCskills.com) for MACWIC proctored credential testing and how to access hands-on lab time.
