**Voice Your Opposition to High Speed
Rail Through Our Community**

SCMaglev is a high speed train that has been proposed between Washington D.C. and Baltimore with a single intermediate stop at BWI Airport. One route being studied goes right through our community. Property, property values, and habitat are at risk. An Environmental Impact Study to select the final route is currently underway. Resident notification of this project has been poor and many people who would be directly affected are only learning of it now. Attend one of the MTA Open Houses to voice your opposition to a project that is bad for our community and bad for Maryland.
