**Andre Wicks**

**Motivational Speaker \* Leadership Mentor \* Workshop Facilitator**

The power of Andre Wicks comes from an unyielding desire to **serve others**.

He has put this characteristic to good use over the past two decades in his career as an award-winning school administrator, teacher, athletic coach, and community advocate.

Active in the Spokane, WA area, Andre has served on the Mayor's Advisory Council on Multicultural Affairs, the Spokane Regional Law and Justice Council, and the Mayor's Housing Quality and Affordability Task Force, as well as sitting on numerous Boards and panels. Perhaps most notably, he spent nearly four years as the Director of THEZONE project, a place-based collective impact initiative whose focus is on bringing a holistic and comprehensive approach to community revitalization to the neighborhoods of northeast Spokane.

In that role, Andre spearheaded a dynamic series of partnerships between organizations, community members, and businesses across all sectors. The continued success of that venture is due in part to Andre's ability to lead, galvanize, and inspire his fellow travelers around a common, over-arching purpose. Together, focused energy and passionate pursuit of a clear "why" paves the way for growth.

Andre addresses individual clients, small teams, and large auditoriums with authenticity, integrity, and humility. And as a servant leader, he relishes in your successes.

"We've already seen the results of the Intercultural Conflict Style training Andre provided."

Mark S., Director of Security

"Andre's insight and perspective were a huge value add to our conference."

Crystal R., OZY Media
