# Jewellers in Český Krumlov

**A wide array of moldavite jewellery is available. Some shops sell unique designs and others sell factory designs.**

Every piece is unique, such is the nature of moldavites.

**Rough tektites are also available, but at widely variable prices, so do shop around. The jewellery in this shop was outstanding.**

**A nice souvenir! Unfortunately no locality details, but definitely from the Southern Bohemian region.**

**It's difficult to know where to start with such a choice.**

**My wife said she didn't want any moldavite jewellery – buy me an iphone instead! ....she got a fridge magnet.**

Many different styles could be found. I personally like the jewellery that enhances the natural beauty of the moldavite shape and sculpture.

**This store had unique designs – they didn't want them to be photographed, so no close-ups.**

This mineral shop had a great selection, including some rough stones.

**I purchased a couple of teardrops at a reasonable price. No locality details unfortunately.**
