In June, McDaniel assured the community of its imminent opening. "We promised our community a first-class facility, and that is what we intend to deliver, even if it takes a little longer than expected. This project will serve our community for the next 50-plus years, so the long-term durability and integrity of the project is paramount."

A similar issue caused Allen's \$60 million stadium to close its doors for the 2014 season after just two seasons. It reopened in 2015 with extra concourse support and a stabilizer added to the scoreboard. With McKinney ISD's problem being found before it opened its doors, the stadium's scheduled events should not be affected.
