

Colorado Springs Christian Schools Advertising Sponsorship Program

At CSCS, we believe Christian education is imperative and so it should become affordable and accessible to more families who truly desire a Christ-centered education. We also believe that the programs we offer are to be of the highest quality and reflect the ultimate level of excellence, and we are excited that God has chosen CSCS as one of the best K-12 educational institutions in Colorado Springs.

To achieve the goal of affordability, CSCS has created a new Advertising Sponsorship Program. The program provides multiple advertising opportunities to businesses that may connect and benefit the CSCS community.

Any business owner interested in becoming an Advertising Sponsor can begin the process by contacting/applying with our Communications Department. The Sponsor needs to submit the content they want advertised according to the level that is chosen. CSCS reserves the full right and authority to not accept any business that is not in alignment with our policies, values and beliefs.

For this Advertising Sponsorship Program to be truly successful, two important goals must be accomplished. First, the CSCS community must receive a valued product or discounted service from this transaction. Second, Advertising Sponsors must provide quality products and integrity that are in alignment with our core values and beliefs. By fulfilling those two objectives, the Advertising Sponsorship Program provides an effective avenue for supplementing funds to achieve the goal of affordable Christian education.

Business owners wanting more information about this program can contact Charlotte Owens by phone at (719) 268-2141 or by email at Communications@cscslions.org.

CSCS exists to provide an excellent education from a Christ-centered, biblical perspective for lifelong service.

Colorado Springs Christian Schools is not responsible for the quality or delivery of services represented or advertised by the participating businesses in this program. While CSCS does screen the participants, it does not give voice or party to any dispute or conflict that may arise between the individual business and customer.
