Brief note about Eritrean Unity for Justice - UK

The Committee of Eritrean Unity for Justice–UK was elected when the late Dr Tewolde Tesfamariam (Wedi Vacaro) held public meeting in London, UK; calling all Eritreans to unite and work for the common good. The Eritrean Unity for Justice (EUJ) is a mass movement and not a political entity.

EUJ aims to promote unity amongst Eritrean people by facilitating dialogue and reconciliation for the rule of law, transparency, mutual respect and the spirit of fraternity creating harmony and co-operation. We believe that unity is a necessary condition for the Eritrean people to tackle the current predicament and replace it with peace and prosperity. Our plan in Great Britain is to form a committee in many part of the country where Eritreans live. Then those committees to create a body that will represent all Eritreans in the UK. This body will have the following mandates:

1. To bring about trust and harmony amongst all Eritreans through transparent and accountable work ethos.
2. To present the plight of the Eritrean people to governmental and non-governmental bodies, diplomats and high ranking officials and lobby on behalf of all of us.
3. To work with all Eritrean justice seekers to form an international body which will advocate to improve current political and humanitarian situation affecting all Eritreans.
4. To co-ordinate efforts with Eritreans and our sympathizers in advocating for the human rights of all Eritrean refugees.
5. The local EUJ Eritrean committees will forge strong communities in their vicinities, strengthening our unity and alleviating our situation.
6. To create a body of Eritrean professionals tasked to producing an authoritative document on Eritrean situation inside and outside Eritrea. The same professionals to act as an advisory body for EUJ.
7. To create a body that registers a list of criminals against Eritreans; warning the perpetrators and gathering evidence for eventual prosecution.

As we all know the predicament of the Eritrean people is tantamount to state of emergency, which demands our collective and urgent response regardless of our affiliations. However, there is evident mistrust amongst our population. Perceived divisions based on religious/regional/ethnic and historical ELF/EPLF dichotomies are slowing our efforts. There are positive signs that this is changing to the better but more needs to be done.

- Many thousands of Eritreans are languishing in jail without due legal process (some for decades) over the wide prison network of over 360. Almost all the youth are held hostage under indefinite military service (some for two decades)
- About 5,000 Eritreans are leaving the country monthly; wherever they went they are exposed to a lot of problems. Some suffer in the hands Rashaida/Bedouin abusers; others perish in the desert or in the sea.
- In Libya many Eritreans Christians have been slaughtered by Dae'sh because of their faith and many more children, women and men are still in the hands of the terrorist organization. It is disheartening to learn that some Eritreans have joined the terrorists in Libya.
- Eritrean refugees are living in dire and often dangerous situations in the Sudan, Egypt/Sinai and other African and Middle Eastern; they need urgent humanitarian assistance.
- Over 3,000 innocent Eritreans are held in Israel in 'Holot' detention centre, and they face the risk of deportation and violation of their basic rights.

We Eritreans find ourselves in an emergency situation where everything needs urgent attention. Hence, every Eritrean is called to work towards unity of the Eritrean people and all justice seekers.
