

Excalibur Industrial - Soil Removal Guide

SOIL TYPE	PRODUCT SELECTION												PRODUCT INDEX		
	3000	4000	4001	4100	5000	5100	7100	QR55	QR75	JW81	LW92	ELIMINATOR			
CARBON		•	•	•	•	•	•	•	•	•	•	•	•	3000	- Industrial Grade Cleaner/ Deruster - removes inorganic soils such as rust, scale and mineral deposits.
COAL DUST		•	•	•	•		•		•	•	•	•	•	4000	- Biodegradable Citrus Cleaner/ Degreaser - removes organic soils such as oil & grease
CRUDE OIL			•	•	•				•	•	•	•	•	4001	- Biodegradable Industrial Natural Citrus Solvent Degreaser - removes organic tars, emulsion, grease, oils, carbons, exhaust
DIESEL		•	•	•	•		•	•	•	•	•	•	•	4100	- Biodegradable Natural Power Citrus Cleaner - removes organic soils - oil, grease, carbon, exhaust, tar, inks
EXHAUST		•	•	•		•		•	•	•	•	•	•	5000	- Industrial Strength Alkaline Cleaner/ Degreaser - removes organic soils - oil, grease, carbons, inks, fuels
GREASE		•	•	•	•		•	•	•	•	•	•	•	5100	- Vehicle Wash Concentrate - removes organic soils such as road film, dirt, carbon
INK		•	•	•	•		•							ELIMINATOR	- A Highly effective, powdered detergent formulated to efficiently remove a wide range of soils including: road film from automobiles, trucks, trailers, buses and cars; carbon deposits from truck exhausts on trailer fronts and sides and bug residue from vehicle fronts. - As well it can be used to remove many of the more stubborn grease and oil deposits on engines, transmissions, undercarriages and oil leaks from leaky hydraulic lines.
MINERALS	•													7100	- Heavy Duty alkaline Cleaner/ Degreaser - removes organic soils such as oil, grease, exhaust, fuels
OIL		•	•	•	•		•	•	•	•	•	•	•	QR 55/75	- Both these liquid detergent products have the unique feature of allowing oils to "Quick Release" while working in conjunction with waste water recycle systems equipped with oil/water separators. - The QR55 is designed for vehicle cleaning but will remove oils and greases as well. - The QR75 will remove the toughest greases, oils and carbons from industrial equipment through marine vessels.
PARAFFIN			•											JW81	- A Liquid Parts Wash Chemical - designed to work in cabinet parts washers to remove carbons, greases and oils from parts - safe on all metals
ROAD FILM						•		•					•	JW92	- A Powder Concentrated Cleanser - designed to work in parts washers and like the Liquid JW81, it has rust inhibitors and anti-foam agents blended in to help in the cleaning process - safe on all metals
RUST	•													ELIMINATOR	- A Highly effective, powdered detergent formulated to efficiently remove a wide range of soils including: road film from automobiles, trucks, trailers, buses and cars; carbon deposits from truck exhausts on trailer fronts and sides and bug residue from vehicle fronts. - As well it can be used to remove many of the more stubborn grease and oil deposits on engines, transmissions, undercarriages and oil leaks from leaky hydraulic lines.
SCALE	•													7100	- Heavy Duty alkaline Cleaner/ Degreaser - removes organic soils such as oil, grease, exhaust, fuels
SMOKE		•	•	•	•		•		•				•	QR 55/75	- Both these liquid detergent products have the unique feature of allowing oils to "Quick Release" while working in conjunction with waste water recycle systems equipped with oil/water separators. - The QR55 is designed for vehicle cleaning but will remove oils and greases as well. - The QR75 will remove the toughest greases, oils and carbons from industrial equipment through marine vessels.
SOOT		•	•	•	•		•		•	•	•	•	•	JW81	- A Liquid Parts Wash Chemical - designed to work in cabinet parts washers to remove carbons, greases and oils from parts - safe on all metals
TAR			•	•										JW92	- A Powder Concentrated Cleanser - designed to work in parts washers and like the Liquid JW81, it has rust inhibitors and anti-foam agents blended in to help in the cleaning process - safe on all metals
SURFACE TYPE															
ALUMINUM				•	•	•					•	•	•	7100	- Heavy Duty alkaline Cleaner/ Degreaser - removes organic soils such as oil, grease, exhaust, fuels
PARTS WASHING											•	•		QR 55/75	- Both these liquid detergent products have the unique feature of allowing oils to "Quick Release" while working in conjunction with waste water recycle systems equipped with oil/water separators. - The QR55 is designed for vehicle cleaning but will remove oils and greases as well. - The QR75 will remove the toughest greases, oils and carbons from industrial equipment through marine vessels.
BRICKS/CONCRETE		•	•	•	•	•	•	•						JW81	- A Liquid Parts Wash Chemical - designed to work in cabinet parts washers to remove carbons, greases and oils from parts - safe on all metals
CONST. EQUIP.		•	•	•	•		•		•				•	JW92	- A Powder Concentrated Cleanser - designed to work in parts washers and like the Liquid JW81, it has rust inhibitors and anti-foam agents blended in to help in the cleaning process - safe on all metals
FARM EQUIPMENT		•					•	•					•	ELIMINATOR	- A Highly effective, powdered detergent formulated to efficiently remove a wide range of soils including: road film from automobiles, trucks, trailers, buses and cars; carbon deposits from truck exhausts on trailer fronts and sides and bug residue from vehicle fronts. - As well it can be used to remove many of the more stubborn grease and oil deposits on engines, transmissions, undercarriages and oil leaks from leaky hydraulic lines.
METAL/ IRON	•		•	•	•		•	•	•	•	•	•	•	7100	- Heavy Duty alkaline Cleaner/ Degreaser - removes organic soils such as oil, grease, exhaust, fuels
OIL FIELD EQUIP.			•	•	•		•		•				•	QR 55/75	- Both these liquid detergent products have the unique feature of allowing oils to "Quick Release" while working in conjunction with waste water recycle systems equipped with oil/water separators. - The QR55 is designed for vehicle cleaning but will remove oils and greases as well. - The QR75 will remove the toughest greases, oils and carbons from industrial equipment through marine vessels.
PAINTED STEEL		•	•	•		•	•	•					•	JW81	- A Liquid Parts Wash Chemical - designed to work in cabinet parts washers to remove carbons, greases and oils from parts - safe on all metals
STAINLESS STEEL		•	•	•	•	•							•	JW92	- A Powder Concentrated Cleanser - designed to work in parts washers and like the Liquid JW81, it has rust inhibitors and anti-foam agents blended in to help in the cleaning process - safe on all metals
VEHICLES		•		•		•	•	•					•	ELIMINATOR	- A Highly effective, powdered detergent formulated to efficiently remove a wide range of soils including: road film from automobiles, trucks, trailers, buses and cars; carbon deposits from truck exhausts on trailer fronts and sides and bug residue from vehicle fronts. - As well it can be used to remove many of the more stubborn grease and oil deposits on engines, transmissions, undercarriages and oil leaks from leaky hydraulic lines.
APPLICATION															
H.P. WASH-COLD		•		•	•	•	•	•	•				•	7100	- Heavy Duty alkaline Cleaner/ Degreaser - removes organic soils such as oil, grease, exhaust, fuels
H.P. WASH-HOT		•		•		•	•	•	•				•	QR 55/75	- Both these liquid detergent products have the unique feature of allowing oils to "Quick Release" while working in conjunction with waste water recycle systems equipped with oil/water separators. - The QR55 is designed for vehicle cleaning but will remove oils and greases as well. - The QR75 will remove the toughest greases, oils and carbons from industrial equipment through marine vessels.
PRE-SPRAY	•		•	•	•				•				•	JW81	- A Liquid Parts Wash Chemical - designed to work in cabinet parts washers to remove carbons, greases and oils from parts - safe on all metals
IMMERSE/SOAK	•		•	•	•								•	JW92	- A Powder Concentrated Cleanser - designed to work in parts washers and like the Liquid JW81, it has rust inhibitors and anti-foam agents blended in to help in the cleaning process - safe on all metals
WIPE/BRUSH	•		•	•	•			•	•				•	ELIMINATOR	- A Highly effective, powdered detergent formulated to efficiently remove a wide range of soils including: road film from automobiles, trucks, trailers, buses and cars; carbon deposits from truck exhausts on trailer fronts and sides and bug residue from vehicle fronts. - As well it can be used to remove many of the more stubborn grease and oil deposits on engines, transmissions, undercarriages and oil leaks from leaky hydraulic lines.
OIL/WATER RECYCLE/EQUIP. CABINET PARTS WASHERS								•	•					7100	- Heavy Duty alkaline Cleaner/ Degreaser - removes organic soils such as oil, grease, exhaust, fuels
