<input type="checkbox"/>	 <b>Ben and Noel - Bridging the Gap</b> Sometimes, it seems like there is an un-crossable generation gap between older and younger kinksters. Many of our older leaders feel as though the younger generation has a different set of priorities than they do, and the youngsters often agree. Where are the differences, and how do they matter for the future of the community? What can our older leaders learn from the younger generation, and how can the older generation effectively mentor those younger?
<input type="checkbox"/>	<b>Mags - Mixing Kink &amp; Addiction Recovery?</b> Have you been told that you can't be kinky if you are in recovery? Have you been told you will use again? With 20yrs in recovery I am here to tell you that these two are not mutually exclusive, they can be merged and both parts thrive. This is an interactive workshop in which we discuss the reality and feasibility of mixing kink and recovery from addiction in healthy ways that help us grow and stay clean. This is open to all types of people in recovery and those who support them. We will focus on the solutions to problems that face those in recovery and those they are in relationships with. This is not a meeting. Leaders supporting those in recovery and supporting leaders in recovery
<input type="checkbox"/>	<b>SusieQ - YOU'RE JUST AN "S-TYPE" SO WHAT...</b> "You're just a submissive/slave you can't do that?" YES you can. Facing the obstacles of starting a new group in a strong dominant environment can be intimidating at first but do not let that stop you. (When I started MAsT: Asheville the response I first got was just that. I sure proved to everyone otherwise.)
<input type="checkbox"/>	<b>Foxglove Lady /NightShade- Following Your Leather / Leadership Path</b> Leaders are often looked upon as the example of how to be, how to act, or how much to commit to a group. This can go from volunteer hours, actions taken, to things as deceptively simple as "walking the walk", especially for Leather Leaders. But if a leather leader is a new to leather, if their path is more unique than the commonly accepted views on leather or leadership, how can the leather leader still be an example to others within their group? How can the differences of an individual leather path be a strength to others trying to find their way? How can one follow their own path while being viewed as a leader 24/7?
<input type="checkbox"/>	<b>James Sheldon – Teaching the Teacher</b> Teaching in the leather community is more than just about delivering content; in order to plan effective instruction, one needs to understand how people learn. This workshop offers practical suggestions for using learning theories to improve your teaching in the leather community and beyond.
