for the park and boathouse!*

5:00 - Boathouse Park Master Plan Presentation

5:45 - Public Comments & Feedback

6:15 - Hart Perry Boathouse Conceptual Presentation

6:45 - Questions

Please Join us as we share our vision for Stonington's newest public park and The Hart Perry Boathouse. A design has developed over the past year that takes into account the site's industrial history as well as it's natural ability to restore itself through natural succession. The idea of Living Shorelines as a means of responsible erosion control management on the coast of the Mystic River has been an anchor in the design development of the park. We are also very excited to be unveiling the design for the Hart Perry Boathouse, which will be home to the Stonington High School crew team and the Stonington Community Rowing Center.
