

# Eco Gro Farms

Where innovation and food grow naturally.

## GROW STRONG & IMPROVE YOUR BOTTOM LINE

Eco Grow Farms™ would like the opportunity to compete for your business of turf, soil, and pest control products. The questionnaire below provides us with the insight on how we may be able to improve the top and bottom-lines of your business. Healthier soils, less input costs and higher yield equals more profit.

Business name: \_\_\_\_\_ Contact name: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

(6) Do you currently take or have soil reports? YES  NO

Additional notes: \_\_\_\_\_

**ABOUT US:** Eco Grow Farms started in Connecticut as an energy/agronomy technology company focused on design building indoor farming solutions. With a greater understanding of our industry we have since expanded into the turf and agricultural treatment industries. Providing natural alternative soil and pest control products to the industry has grown tremendously. All of the products we offer are proprietary blends, and approved by the Organic Material Review Institute (OMRI) and all have proven to raise the top line with less input costs. We want to help you do the same.
