

Long County School System

Assessment Security Notice

Teachers, administrators, and parents depend on accurate, valid, reliable, and timely information about student academic performance on high stake tests. The test results are used to improve instruction, identify the strengths and weakness of individual students, implement targeted intervention, and to ensure academic success for all students. Testing irregularities breaches of test security, or improper administration defeats our efforts to improve student achievement. Long County Schools are responsible for ensuring all personnel whose duties involve either testing administration or data collection are trained and adhere to state assessment guidelines. All alleged violations will be reported to the State Dept. of Education, Office of Assessment and Accountability. After this initial report, the Georgia Department of Education will determine if the alleged violation requires further investigation.

Any person who witnesses or believes a violation occurred either by school personnel or students should report the alleged violation. If you have any questions concerning test security, please contact the principals at each school. You can also contact Dr. Janet Wilson, Director of Testing, or Mr. David Edwards, Superintendent.
