

Long County School System

PRESS RELEASE

August 9, 2019

The Long County Board of Education and Superintendent David Edwards would like to thank our staff, students, and parents for an awesome first week of school. The excitement of a new year could be felt throughout the schools.

Student enrollment at each school continues to climb. The district, as a whole, saw 3,848 students report to class: Smiley Elementary 993, McClelland Elementary 866, Long County Middle 940, and Long County High 1049. We have an additional 142 students enrolled who have not reported as of this press release.

We are experiencing a high volume of parent drop-off and parent pick-up traffic at both of the elementary schools. We appreciate your patience as we continue to work to have a safe and efficient process for dropping off and picking up students.
