School Plan for Shared Student Achievement

What is it? This is a plan that describes how Long County High School will provide opportunities to improve parent/family engagement to support student learning. Long County High School values the contributions and engagement of parents/families in order to establish an equal partnership for the common goal of improving student achievement. This plan describes the different ways that Long County High School will support parent/family engagement and how parents/families can help plan and participate in activities and events to promote student learning at school and at home.

How is it developed? Long County High School welcomes parent/family input and comments at any time regarding the plan. All parent/family feedback will be used to revise the plan for next year. The plan is posted on our school website for parents/families to view and post feedback throughout the year. We also distribute an annual survey online and have handouts that are available to send home with the students asking parents/families for their suggestions on the plan and the use of funds for parent/family engagement. Parents/families can also give feedback during our annual Title I meeting and various meetings throughout the year.

Who is it for? All students participating in the Title I, Part A program, and their families, are encouraged and invited to fully participate in the opportunities described in this plan. Long County High School will provide full opportunity for the participation of parents/families with limited English, parents/families with disabilities, and parents/families of migratory children.

Where is it available? It is sent home with all students prior to November 1st. The packet also includes the Parent-Compact and Parent/Family Engagement Board Policy Plan. Parents can also retrieve a copy from the school front office, or school website www.longcountyhs.com.

What is Title I?

Title I, Part A is a part of the Elementary and Secondary Education Act of 1965 as amended by the Every Student Succeeds Act (ESSA). This Act provides federal funds through the Georgia Department of Education to local educational agencies (LEAs) and public schools with high numbers or percentages of economically disadvantaged children to help ensure that all children meet challenging state academic content and student academic achievement standards.

Title I, Part A programs must be based on effective means of improving student achievement and include strategies to support parent/family engagement.

The Title I, Part A Program division provides technical assistance, resources, and program monitoring of LEAs to ensure that all children have an opportunity to obtain a high quality education and to achieve proficiency on high academic standards.
