2018

## February Highlights:

The shortest month of the year has come and gone, so has the 2018 Olympics and I'm sure everyone is hoping the cold weather went with them.

This past month we hosted our annual Literacy Day. On February 14th, we welcomed Adrian "Spike" Wolfleg into our school. We were happy that he made it safely to Siksika, after driving through a blizzard to deliver an awesome presentation on comic book characters. It was great to see most students engaged and participating in the workshop and bringing out their artistic abilities. We would like to thank Spike for the presentation, as well as our caterer who also drove through the blizzard, Kariann Bastien, for the delicious meal. To celebrate Valentines day, each student was given a creamsoda float mmmm....Thank you to those who supported school and wore red or pink this day.

On February 16 a select group of students went on a fieldtrip to watch the live play "The Outsiders" put on by Storybook Theatre. Its was a great experience for all the students that went as many not been to a live theatre before.

On February 26 & 27 our students were invited to SNHS for a presentation from GOING M.I.L.E.S. Group who delivered motivational speech and hypnosis performance to our youth.

February 28 On this day we also welcomed Michelle Weasel Head-Strangling Wolf to our school. She presented educational info to our students on Fetal Alcohol Spectrum Disorder (FASD).

## Siksika Class Update

The students have started working on their first projects, which they had a choice of either beading or working with plastic canvas to create their projects. For some of the students it is their first time beading or working with plastic canvas, they are doing great. Their projects will be posted as they complete them and they can share their hard work and dedication with these projects.

I will share more as our classes continue.

# Going M.I.L.E.S.

Motivate, Inspire, Lead, Empower,  
and Assist Our Youth To Succeed

Going M.I.L.E.S is a leadership initiative, created for the sole purpose of fostering a positive environment for Indigenous youth to grow and interact with today's top Indigenous talent, through the medium of the arts. With Indigenous peoples being one of the fastest demographics growing today, a change is needed to lead a more healthy lifestyle with the chance of positive expression, which is at a all time low.

With professional positive role models Going Miles is a program developed to ensure our youth get to experience the potential they have in themselves to create and believe in seeing their thoughts and ideas come to life.
