

February

PIITAIKISOM- EAGLE MONTH

Now that we have wrapped up the first semester; the students are sailing through their module work, marks are handed in, our graduates have written diploma exams and new and exciting programs have began here at the school. It's been a very busy month. Now that we look towards February, there are more and exciting events happening here at the school. Continue on through the newsletter to find out.

We would also like to Welcome Leslie Jerry to the School as our Janitor/ Maintenance Worker.

Thank You

BARB BLAKEMORE – Donations of clothes and baby item's

SIKSIKA HOUSING- Binders for the school

TRINA YELLOW FLY- Baby Clothes

HOLLY SOLWAY- Baby Clothes

TANNIS' UPDATE

STAY TUNED FOR AN UPDATE IN OUR MARCH SUBMISSION. TANNIS IS EXTEMEMLY BUSY WITH SCHOOL ASSIGNMENTS AND PROJECTS AT THE MOMENT.

WE CANT WAIT TO HEAR ALL ABOUT IT.

We will be picking NO PHONE periods (All day, Mornings Etc). You will be required to LABEL and DROP your phone off at the office during these time periods. If you choose not to comply, you will be dropped off at parent/guardians house or office.

*Our Goal is to minimize distractions and maximize productivity

SIKSIKA CLASS

The students have been working on their projects and have been creating some beautiful beaded items. The class had an Elder visit them and the students enjoyed his talk. Future ideas were shared by the elder so looking forward to this idea being put to action. Norman Running Rabbit talked about the importance of education for a brighter future. The paths that are taken are based on an individual preference and the students can be anything they wish to be. With exams and presentations for the school the students have taken any little time to work on their projects.

ROBOTICS

Mr. Rob Cardinal has started Project: Lego Mindstorms Robotics here at Siksika Outreach School for our students. Their first class consisted of our students naming their groups and separating the Legos and programming the computers for the specific robot they were going to build. They will be participating in a Lego challenge towards the end of their program. There is a lot of interest and enthusiasm for this new program at the school. They began their first class on Tuesday January 8th and since then, we have had three students successfully program their robot for it to maneuver the way they programmed it. Rob also brought in a 3D printer to show the students the advancement of technology and how the 3D printer performs.

YOUNG PARENT PROGRAM

MONSTOYII : NEW YEAR

Happy New Year! We are happy to be back. We are busy as usual getting our work completed before the semester end. Congratulations to all the diploma writers who finished their exams. We are looking forward to meeting our new arrivals in our Young Parent Program. Congratulations to Dallynn Running Rabbit on the birth of her son "DaShea" born on January, 26, 2019. Congratulations to Arnell Saddleback and Brytin Seaton on the birth of their daughter "Lakey" born on December, 26, 2018.
