

The leading spreadsheet based development appraisal viability application, now available direct from the Microsoft Office Add-In Store.

Caldes V8 Developer provides a tried, tested and standardised model to assess Gross Development Value, capitalised rental income, grants, funding, land value assessment, building cost, abnormal costs, infrastructure costs, levy charges, fees, returns and more.

The problem:

Viability of property developments require a realistic understanding of costs and values in the local area and an understanding of the operation of the market. With this in mind, developers need a quick and reliable method for appraising projects.

The solution:

The all new Caldes V8 Developer model has been re-built from the ground up with the assessment of viability in mind. This underpins decision-making and enhances understanding of the risks and benefits of funding different development sites.

NEW MICROSOFT EXCEL CLOUD INTERFACE

Microsoft Excel: Anyone involved in property development is at least partly familiar with Excel. Caldes is now provided as an Excel Add-In. Microsoft Excel provides you with unchallenged power, speed, reliability, familiarity and functionality. This is why we use Excel as our engine (Excel / Office 2013 or later.)

Cloud based: V8 gives you the freedom to work where you want and when you want. Being on the cloud, you are always kept up to date with the very latest version. Save your projects to 'OneDrive' cloud storage and you will always have them to hand.

TIME SAVING AND TROUBLE FREE

\odot

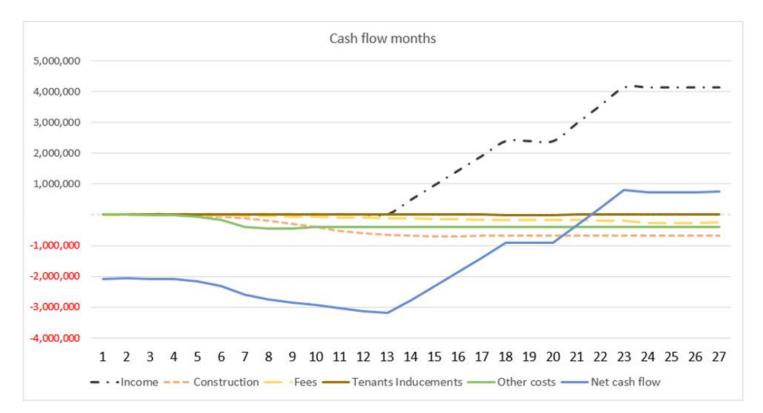

Save Time: Target profit, or determine land price at the click of a button. Add new units, alter finance or VAT and remodel your project in seconds. Create multiple scenarios and test sensitivity in an instant.

_ ¬	

Perfect Presentations: If you are looking for funding from a bank, presenting to a board, or proving viability to a council planning department, V8 Developer provides full control over perfect reports, be it a quick appraisal, detailed cash flow, chart or break down of unit information.

Fully supported: Each license includes week-day telephone and email support. We can provide on-site or remote training. We can also upgrade your old Caldes V7 or earlier projects for a small fee.

Try before you buy!

Simple WYSIWYG Appraisal layout

Page 4

0800 142 5604

Appraisal: The appraisal is the simplified presentation of your project, bringing together all the different elements in one easy to read report.

FULLY INTERACTIVE CASH FLOW – UPDATE DIRECT TO CELLS

The cash flow provides an interactive month by month report of your project. Add in new costs or income directly to the cash flow or let the V8 developer work out the spread. Add up to 4 different tranches of finance or adjust your VAT structure, item by item. Automatically build cash flows from 1 month to 10 years.

TOOLS FOR THE NEW OR ADVANCED USER

New Project Wizard: Not sure how to get started? On starting a new project, let the 'Wizard' simply guide you through the development appraisal process, building your project step by step.

Sensitivity Analysis: Instantly see the effect of changes in rental or sale value, net or gross floor areas, land cost and build cost. A mini appraisal is shown at the top of each sheet for an instant summary of how changes affect your project.

Sensitivity Analysis

	-2%	-1%	Rental value 0%	1%	2%
