Disclaimer, Disclosure and Consent

I, _____ Request that Rosemary Slade perform a hair mineral analysis and set up a Nutritional Balancing program.

I also understand that nutritional balancing is not a substitute for regular medical care. It is not a means of diagnosis, treatment, prescription or cure for any disease or condition, mental or physical. Instead, it is a means of reducing stress and balancing, strengthening and restoring body chemistry. When this is done, many health conditions go away by themselves.

I understand that Rosemary Slade has a BS in Occupational Therapy and has extensively studied and applied nutrition, diet and health during her twenty years in practice. She has received her nutrition certification from World College and is certified in Nutritional Balancing.
