Low-carbon technologies

ENERGY EFFICIENT HOME RENOVATION: your key to MORE COMFORT & LOWER BILLS

Through the Triple-A project **Local Authorities** will support homeowners to **Adopt low-carbon technologies** in their homes. To achieve this, Local Authorities will be raising **Awareness** of what low-carbon technologies are on the market and will be providing better **Access** to these technologies via **demos, consultancy** and **financial advice** tailored to the homeowners needs and resources.
