**Email:**

Item	Quantity	Price	Total
<b>Grand Total</b>			

1. Please describe the project or activity you wish to have funded.
  
2. The Parent Council prioritizes applications that benefit the school on the whole or large and diverse groups within the school. For example, equipment that is used by many grades is more likely to be approved than equipment that is used by only one grade. Keeping this guideline in mind, how will the school community benefit from the outcome of this project or activity? In your opinion which group would benefit most: students, parents, staff, or all three.
  
3. In your opinion will this project or activity have the greatest impact on the curriculum, instruction, parent involvement, staff morale, over-all school climate or other (elaborate).
  
4. What is the timeline for your project's completion? Will there be a need for assessment of progress? (check in and evaluation after the completion of the project/activity)
  
5. Will this project require additional funding?
  
6. What other sources have you requested funding from? Were these requests granted?
  
7. Have you received Parent Council funds in the past year? If so, describe the project that was funded.
  
8. Have you applied for and been denied Parent Council funds in the past year? If so, describe the project that was denied.
  
- **Please note that requests greater than \$200 generally cannot be presented and approved at the same meeting but require input from the larger parent body via class representatives.**
