Youth Weekend**
July 7- 8 Washington D.C.

UNDER THE SUN OF THE TRUTH

Emmanuel / Chico Xavier

“But when that Spirit of Truth comes, it will guide you into all truth ...” JESUS (John 16:13)

In what way will Spiritism overcome the obstacles that become magnified ahead? There are companions who ask, "Shall we dispute a political position or monopolize the terrestrial fortune?" Meanwhile, others emphasize the illusory necessity of verbal warfare to congregations or people.

On the subject, however, we transcribed question 799 of The Spirits' Book.

Clearly and prudently, Kardec formulated the following question to the Spirit mentors of his work: *"In what way can Spiritism contribute to progress?"*

And, within their usual logic, they answered: "By destroying materialism – one of the sores of society – it enables people to comprehend where their true interest lie.

“Since the future life is no longer veiled by doubt, men and women will better understand that they can ensure their future based on the present.

“Destroying the prejudices of sect, caste and color, Spiritism teaches them about the great solidarity that must unite them as brothers and sisters.”

Let us not be deceived regarding our tasks. We are all called by the Blessings of the Christ to enlighten the world of consciences - starting from ourselves - while dissipating the darkness of materialism to the blaze of the Truth, not by the spirit of force, but by the *force of the spirit*, to express itself in service, fraternity, understanding and education.
