BIO CLEAN

GREEN CLEANING & DISINFECTION SOLUTIONS

bCLEAN caring for your world

MULTI PURPOSE CLEANER & DEGREASER

bCLEAN-C multipurpose cleaner & degreaser is a 100% non-toxic and biodegradable natural product which is used in all types of cleaning and degreasing applications. The product is made up of three main areas which include surfactant, enzymes and scientifically formulated natural cleaning agents.

Liquid Concentrated Multi Enzyme Treatment

APPLICATIONS

- Industrial deep cleaning
- Clean-in-place (CIP)
- Housekeeping applications
- Kitchen applications
- Surface cleaning
- Biofilm control

bCLEAN caring for your world

WASTE TREATMENT & ODOUR CONTROL

bCLEAN -W is a 100% non-toxic and biodegradable natural product which is used in all types of effluent disposal, waste treatment and odour control applications. The product is made up of enzymes and scientifically formulated microbial stimulants.

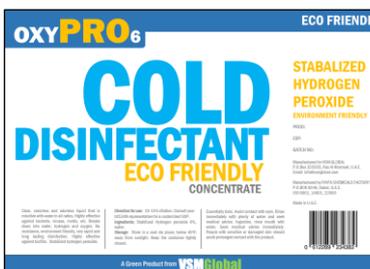

Liquid Concentrated Multi Enzyme Treatment

APPLICATIONS

Grease Traps: bCLEAN-W treated grease traps require less frequent pump-outs or can even remove the need for pump outs. Effluent Disposal Systems: Different problems occur at different times of the year depending upon temperature and weather conditions. bCLEAN-W provides the answer to the problem with septic systems and leach drains by enhancing the breakdown of the waste in the system and reducing unwanted odours.

Municipal Applications : STP/ETP, Landfill applications, sewage pipes, transfer stations

bCLEAN caring for your world

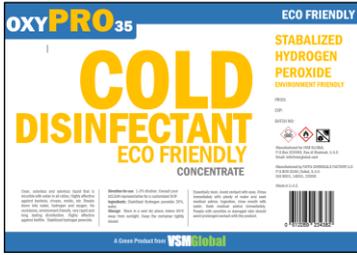

COLD DISINFECTANT & DECONTAMINANT Ready-to-Use

OxyPRO-6 is an effective and long lasting food grade disinfectant based on a complex formula with stabilized food grade hydrogen peroxide. OxyPRO-6 is a safe and highly effective product with the following main properties:

- Hospitals

Smart Disinfection
Low Impact | Less Cost | High Efficiency

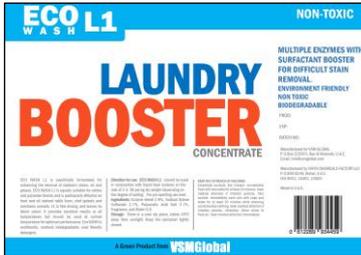

ECO WASH

NATURAL LAUNDRY LIQUID

COMMERCIAL LAUNDRY SOLUTIONS

ECOWASH

MULTIPLE ENZYME WITH SURFACTANT BOOSTER FOR DIFFICULT STAIN REMOVAL.

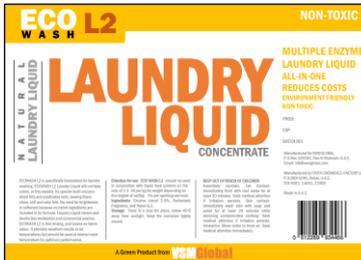

ECO WASH L1 is specifically formulated to eliminate the oils, grease, grass, blood, and organic dirt that stain and prematurely age fabrics.

ECO WASH L1 is equally suitable for cotton and polyester blends and is particularly effective on food and oil stained table linen, chef jackets and mechanic overalls.

ECO WASH L1 is free rinsing, and leaves no fabric odour. It provides excellent results at all temperatures but should be used at normal temperature for optimum performance.

Eco WASH L1 is ecofriendly, nontoxic biodegradable, user friendly laundry liquid.

ECOWASH

MULTIPLE ENZYME LAUNDRY LIQUID

ECOWASH L2 is specifically formulated for laundry washing. ECOWASH L2 Laundry Liquid will not fade colors, or fray weaves. Its special multi-enzyme blend lifts and eradicates soils, leaving fibers clean, soft and odor free. No need for brighteners, or softeners because no harsh ingredients are included in its formula. Laundry Liquid cleans and deodorizes residential and commercial washes.

ECOWASH L2 is free rinsing, and leaves no fabric odour. It provides excellent results at all temperatures but should be used at normal room temperature for optimum performance.

ECOWASH L2 is eco friendly ,non toxic biodegradable ,user friendly detergent
