

- Instagram is the number one platform for online bullying
 - In 2016, **1 in 6** missing youth are involved in sex trafficking
 - **1 in 7** students k-12 are a bully or have been bullied
 - **160,000** students will intentionally miss school in fear
 - **83%** of girls and **79%** of boys report harassment
 - **40%** of boys that were bullied in grades 6-9 have 3 or more arrests by the age of 30
 - **75%** of shooting incidents have been linked to bullying
 - **64%** of students that have been bullied don't report it
 - In 2017, **12%** of students surveyed said they have sent an explicit image of themselves or another person to someone else
 - **15%** of sexting is now done by 12-year old's or younger
- By educating adults in the following areas we **CAN** be the resource. Education does not discriminate against race, sex or age. Ignoring that there are issues is as bad as supporting it. We will cover the following areas in our workshops:
1. Basic Internet Safety/Cell Phone Safety
 2. Cyberbullying
 3. Inappropriate Contact
 4. Reveling Too Much
 5. Predators
 6. Meeting Offline
 7. Social media Networking
 8. Sexting
 9. Human Trafficking
- Additional material offered to adult classes:*
1. Warning Signs
- Basic phone usage and control procedures

WHO WE ARE

We are 6 moms with a passion for sharing resources, tools and education with other adults are intermingle with children and their devices. We know technology changes daily, we as adults have to be educated enough to keep up with the consistent changes. If we don't know how do we teach our children.

The mission of Mobile Mamma is to ensure that everyone from age 5 to 95 are educated well enough to be safer and smarter online while using their mobile or smart devices. The purpose of Mobile Mamma is to provide a valuable educational resource hub for children and adults. Mobile Mamma understands that technology is one of the greatest advancements of all time, however technology imposes dangers equal in measure to our youth.

1. Basic Internet Safety/Cell Phone Safety
2. Cyberbullying
3. Inappropriate Contact
4. Reveling Too Much
5. Predators
6. Meeting Offline
7. Social media Networking
8. Sexting

DISCONNECT 2 RECONNECT

Our youth are in as great a danger as any youth in the nation. Parents and educators have the same limited knowledge when it comes to keeping children safe where technology is concerned as parents throughout the nation. This program will increase safety for our entire community. This includes safety for participants as well as those that they pass the knowledge onto. The benefits will impact other underserved groups to include the elderly and people with disabilities.

Every day we see or hear on the news how a young person has committed suicide or an incident with a gun on school ground. Reaching parents and guardians outside of the classroom can also be a challenge given ever increasing busy schedules. Offering the program in or near the communities in which they reside and in partnership with similar programs (DARE, MADD, National Family Night Out, and the like) will help us to meet this challenge. In addition, we are challenged with the often heard idea that "My Kid Would Never..." making it difficult to engage parents and some educators. Information is our greatest weapon to meet this challenge.

HOW DOES IT WORK?

Disconnect 2 Reconnect is a the retroactive curriculum provided to the administration, students and staff. The issue(s) have already occurred, now what we have to do is take the POSITIVE approach and show everyone what the better, more common sense approach to the situation would be.

The curriculum covers topics to include: Basic internet safety, cell phone safety, and cyberbullying, inappropriate contact, revealing too much, predator's online, meetings offline, social media networking, sexting and human trafficking.

We offer up to 5 different sessions with staff, students and parents. By providing these sessions we are able to provide the same educational information to everyone but it is tailored to age specifics.

School Administration- We strive to make them aware of new trends that will affect their students and how they will be able to approach the students.

Students- Depending on the age of the students we have workbooks that are age specific. They all provide the opportunity for the students to take the more positive approach to the situation.

Parents- We show the parents what we have been doing or will be doing with the students. Along with providing them the educational resources that will allow them to better reconnect with their children.

This curriculum will disconnect everyone from their devices and make them reconnect again as human beings.
