

KLEMMFIX SPECIFICATION

The Horizont Klemmfix system is ideal for active construction sites where concrete or plastic barriers consume additional, critical space. Lane Dividers are also tall and flexible enough so that they can suffer vehicle impacts without major damage to the divider or the vehicle

Guide Curb, separator (LN60)

- original Klemmfix interlocking system
- two-tier shape
- skid resistant grips
- composed of dense recycled plastic
- all weather durability
- water drainage
- ease of installation (no anchors, no glue)
- a 90°-curve to be laid out on ~ 11x11m
- snap-in reflective arches (optional) for best nighttime visibility
- weight approx. 19 kg

Part No.	Description	PQ
25581	Guide Curb, yellow, Dimensions: (LxHxW) 1000 x 90 x 270 mm	50
25581WEISS	Guide Curb, white, Dimensions: (LxHxW) 1000 x 90 x 270 mm	50

Certified by the BAST acc.to TL-Leitelemente Cert. No.: 94 5 S 001/LU

25583

Curb End piece A (LN61) and End piece B (LN62)

Part No.	Description	PQ
25582	End piece A, yellow, moulded-in steel hook, skid resistant grips , Dimensions: (LxHxW) 440 x 90 x 270 mm	1
25582WEISS	End piece A, white, moulded-in steel hook, skid resistant grips , Dimensions: (LxHxW) 440 x 90 x 270 mm	1
25583	End piece B, yellow, moulded-in receptacle for steel hook, skid resistant grips , Dimensions: (LxHxW) 480 x 90 x 270 mm	1
25583WEISS	End piece B, white, moulded-in receptacle for steel hook, skid resistant grips , Dimensions: (LxHxW) 480 x 90 x 270 mm	1

Certified by the BAST acc.to TL-Leitelemente Cert. No.: 94 5 S 001/LU

25584

Reflective arch (L65)

- 14 cat's eyes reflectors
 - arch-shaped
 - snap-in installation
 - clearly shows the raised nature of the curb in the dark
 - low profile allows errant tires to flow smoothly over
- Application of reflective arches is optional. It is strongly recommended on motorways and in work zones, especially in the dark.

Part No.	Description	PQ
25584	Reflective arch, yellow, Dimensions: (LxHxW) 180 x 60 x 56 mm	50
25584WEISS	Reflective arch, white, Dimensions: (LxHxW) 180 x 60 x 56 mm	50

Certified by the BAST acc. to TL-Leitelemente Cert. No.: 3194

Leitboy II (L72)

- two-part vertical marker
- rebounding support from double-walled flex boot, detachable and replaceable
- restores to upright position, if struck by a vehicle
- top section made of high impact resistant plastic (PP)
- recessed sheeting area
- sloped sheeting, on one side or on both sides
- sheeting type 2, HIG
- handle on top

Dimensions (HxW)	
Delineator	760 x 215 mm
Sheeting	500 x 187,5 mm
Weight	ca. 1,7 kg

Part No.	Description	PQ
25590/2	keep right / left	Sheeting type 2, HIG 10
25591/2	keep right / right	Sheeting type 2, HIG 10
25588/2	keep left	Sheeting type 2, HIG 10
25589/2	keep right	Sheeting type 2, HIG 10

Leitboy III (L82)

- two-part vertical marker
- rebounding support from double-walled flex boot, detachable and replaceable
- restores to upright position, if struck by a vehicle
- top section made of high impact resistant plastic (PP)
- recessed sheeting area
- sloped sheeting, on one side or on both sides
- sheeting type 2, HIG
- with- or without handle
- available also with chevron sheeting

Dimensions (HxW)	
Delineator with handle	730 x 155 mm
Delineator without handle	680 x 155 mm
Sheeting	500 x 125 mm
Weight	approx. 1,0 kg

Certified by the BAST acc.to TL-Leitbaken Cert. No.: 95 2K 01

Leitboy base L 54

- mediumweight base
 - composed of dense, durable recycled plastic
 - withstands all weather conditions
 - tapered ends
 - built-in slot accepts all types of Leitboy
 - skid resistant grips
- Base L54 is predominantly for Leitboy IV.

Part No.	Description	PQ
25594	Leitboy base L54, yellow	40

Certified by the BAST acc.to TL-Leitbaken Cert. No.: 95 2K 01

Dimensions (LxHxW)	1.000 x 270 x 90 mm
Weight	approx. 14,0 kg
Material	Recycling

Leitboy V (L102)

- cylinder shaped, for best visibility from angled views
- two-part vertical marker
- top section made of blow-moulded high impact resistant plastic (HDPE)
- rebounding support from double-walled flex boot, detachable and replaceable
- restores to upright position, if struck by a vehicle
- extra tall (1030 mm)

Dimensions (HxW)	
Delineator	1030 x 220 mm
Sheeting	750 x 187,5 mm
Weight	approx. 2.2 kg

Part No.	Description	PQ	
25L102RL	keep right / left	Sheeting type 2, HIG	10
25102RRL	keep right / right	Sheeting type 2, HIG	10
256228	keep left	Sheeting type 2, HIG	10
256229	keep right	Sheeting type 2, HIG	10
25102ABWL	Centre out	Sheeting type 2, HIG	10

Leitboy bollard L120

- two-part cylindrical, vertical marker
- top section made of blow-moulded high impact resistant plastic (HDPE)
- rebounding support from double-walled flex boot, detachable and replaceable
- restores to upright position, if struck by a vehicle
- recessed sheeting area
- two bands of sheeting type 1, EG or type 2, HIG

Other than flat delineators, bollards provide overall round appearance, visible from any direction.

Dimensions	(H) 810 mm Ø 190 mm
Weight	approx. 2.2 kg
Stripes	each 100 mm width
Material	Plastic

Part No.	Description	PQ
251202L	white Sheeting type 1, EG	5
251203L	red Sheeting type 2, HIG	5
251205L	black Sheeting type 2, HIG	5
