

KLEMMFIX MINI

The Horizont Klemmfix system is ideal for active construction sites where concrete or plastic barriers consume additional, critical space. Lane Dividers are also tall and flexible enough so that they can suffer vehicle impacts without major damage to the divider or the vehicle

Mini delineator – Mini Leitboy

- Mini Leitboys from horizont klemmfix fulfil the German Technical Terms of Production and Delivery for temporary marking.
- Robust, yet flexible materials guarantee a high overrun firmness.
- As the bases are with adjustable brackets, the Mini Leitboys can be exchanged easily.
- Reflective sheeting type II, HD, and cats' eyes reflectors assure best visibility.

Support and Service

At RRSP, we look to offer our customers the right road and pavement system solution through a combination of fast service, reliable inventories, knowledgeable people, personalized attention, and competitive pricing which is perceived by our customers to be the best value available.
