## ★ About United Portable Buildings

United Portable Buildings was established with many goals in mind, integrity, quality, and customer service are just a few of those. We strive to provide the very best portable storage products for your needs and use the very best construction materials. Our team brings many years of experience and knowledge to the table to set us apart from others while allowing us to continually innovate.

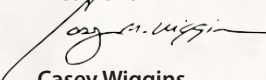

### Our Commitment

Our commitment is to always build and deliver our customers the very best quality portable building. We stand behind our five year manufacture craftsmanship warranty and we are committed to using the best materials and utilizing a strict inspection process.

We welcome you to become part of our United family.

President

Casey Wiggins

## ★ UPB Greenhouse

All greenhouses come standard with polycarbonate panels (which allow the sun's UV rays to come through) on the roof and the top halves of the walls. The bottom half of the walls are built with metal panels which gives the greenhouses more structural strength. Each greenhouse is built with a 4' door in the front, one greenhouse back window, and sidewall windows. Standard features also include a workbench on each sidewall and across the back (workbenches are made out of treated wood), a steel rod attached to the rafters to support hanging plants and inside faucet with an outside hose bib so you can attach a water hose or water line to the faucet and have a source of water inside your greenhouse.

### Greenhouse Sizes & Prices

See standard features & available options page

8x10 - \$2,995

10x12 - \$4,020

8x12 - \$3,295

12x12 - \$4,595

*Protect your plants and get your yard ready for Spring with a Greenhouse from United Portable. Since greenhouses are exposed to a lot of moisture and humidity, each one of our greenhouses are built with treated flooring, treated studs, and treated rafters. Between the flooring and the floor joists we add a layer of screening to protect the greenhouse floor from weeds and insects creeping through.*

## ★ UPB Hideout Playhouse

Each hideout playhouse is built with 5' walls and is built in the same Floor Plan design as a regular cabin, with a 4' porch attached to the front of the building. There is a 14X21 playhouse window and a 36" Dutch Door (the Dutch Doors have a top section that can open and close separately from the bottom section), on the front wall facing the porch. A 14X21 window centered on each sidewall, 12X12 window on the front gable over the porch, shutters on all the 14X21 windows, and a 6' tall adult door on the back wall. On the inside is a cute little loft, protected by rails, and a ladder for easy access to the loft.

### Hideout Playhouse Sizes & Prices

*See standard features & available options page*

8x10 - \$2,795	10x10 - \$3,120
8x12 - \$2,945	10x12 - \$3,415
8x14 - \$3,350	10x14 - \$3,895
8x16 - \$3,775	10x16 - \$4,370

*For an upgrade fee you can choose to add log siding to your hideout playhouse and give it a rustic appeal.*

## ★ Our Construction Guarantee

Our portable buildings are the highest quality built structures in the business. This is our construction guarantee regarding the quality construction of our wooden portable buildings, manufactured by United Portable Buildings:

### Flooring

- 1) All transportation runners attached to bottom of the building are 4x6 treated runners. The top edge of the runners have notches 1" deep for placement of the floor joists. This allows the floor joists to set down into the runners as opposed to sitting on top of the runners and being toe-nailed in.
- 2) Floor joists are 2x6 treated joists and are fastened to the runners with 3" galvanized nails. Floor joists are spaced either 12" or 16" on-center.
- 3) All flooring is a 5/8" pro-shed tongue & groove flooring made by lp corp and has a 10 year limited warranty against termite damage or fungal decay. The flooring is fastened to the joists with 2" nails.

Ask about our **RENT TO OWN** packages with **NO credit check**

Call Now 662-502-3226

## Walls

- 1) Premium grade 2x4s are used for wall construction. All studs are spaced 16" on-center. Nails used for wall framing are 3" framing nails.
- 2) The walls are double-plated on top. The top portion of the double top plate is a 2x8 and is also used to create the overhangs on the side walls.
- 3) All exterior siding is an LP smart panel siding, made by the LP corp, and is fastened to the walls with 2" nails. This siding has a 50 year limited warranty against termites or fungal decay.

Call **662-502-3226** today for more information and **FREE\*** delivery options

## ★ Our Construction Guarantee

Our portable buildings are the highest quality built structures in the business. This is our construction guarantee regarding the quality construction of our wooden portable buildings, manufactured by United Portable Buildings:

### Roofs

- 1) On buildings 8', 10', or 12' in width all trusses are made from 2x4s and fastened together with zinc-plated truss plates. On anything that is 14' or 16' wide the trusses will be constructed with a 2x6 top chord on the truss and also fastened together with the zinc-plated truss plates. The trusses are spaced 24" on-center.
- 2) A 7/16" osb is fastened to the trusses with 2" nails.
- 3) A roof covering of shingles or metal gets fastened to the osb. The shingles are a 30 year architectural shingle and the metal is a 40 year, 29-gauge metal.

Ask about our **RENT TO OWN** packages with **NO credit check**

Call Now 662-502-3226

## Exterior Coatings

1) On all the painted buildings the nail holes and all the trims are caulked or siliconed and then painted with a high quality exterior paint. The paint is projected to last 10-15 years.

2) Regarding all the urethane-stained buildings, all the window and door trims are siliconed with a superior clear silicone and then the urethane-stain is applied. The urethane-stain was designed for applications to the LP smart panel siding and trim and has a projected life expectancy of 15-20 years.
