

Professional Service Agreement

An important part of any therapeutic relationship is to have a clear and professional understanding between all of us. The following is a description of the policies and procedures, which should clarify our mutual obligations and expectations. Please do not hesitate to ask questions or for clarification about any of the following items.

PROFESSIONAL RESPONSIBILITY AND ETHICS

The Center for Postpartum Family Health utilizes therapists licensed by the state of Texas as Licensed Professional Counselor Interns and Licensed Marriage and Family Therapy Associates. These clinicians have completed all of the necessary requirements to be fully educated, trained and licensed as a mental health care professional, and are working towards full licensure by completing the necessary hours under the guidance of a Texas state board certified supervisor for both licenses. Our practice is dedicated to maintaining the privacy of your personal health information as part of providing professional care. It is your legal right that your records are kept private.

As Licensed Professional Counselors, a Licensed Marriage and Family Therapists in the State of Texas, we are bound by the ethical standards of the state licensing boards, and by the laws of the State of Texas, to act always in your best interest, according to good professional judgment. You deserve and will receive our continuing respect and best efforts in our work together. There are risks involved in undergoing counseling or psychotherapy. Your presenting problem may get worse, and/or other issues may arise. If for any reason our work together is mutually agreed to be unhelpful, we will provide you with referrals to other practitioners.

CONFIDENTIALITY

Information obtained in this office, through evaluations and therapy sessions, will not be disclosed to any outside person(s) or agency without your written permission. Exceptions to this rule of confidentiality include situations in which you or someone else is in danger of physical harm. We are bound by state law to report any suspicion of suicide or homicide threat, or of any type of child abuse. I ask that you provide the name of a trusted person to act as an emergency contact, should there be an incident requiring emergency services. Please provide this person's name and contact information in the space at the end of this document.

Our practice is dedicated to maintaining the privacy of your personal health information as part of providing professional care. It is your legal right that your records are kept private. If your therapist is a pre-licensed professional, he or she is under the direct supervision of a Board Approved LPC Supervisor. Your therapist meets with his or her LPC Supervisor each week that he or she is working with clients to review cases, receive feedback and consultation to ensure that you are receiving the best care. Part of your therapist's supervised experience may include group supervision, in which case he or she meets with other interns who are also under the same supervision to consult about your case. Each intern is bound by the same ethical guidelines for confidentiality. The name and contact information for your therapist's LPC Supervisor is listed at the end of this document.

RECORDS

It is our practice to keep a brief, HIPPA-compliant electronic record of our work together. This includes any relevant information regarding the content of registration and intake consent forms, progress notes, and a log of payment transactions. If you have any special concerns or requests regarding record keeping, please let us know at any time. All efforts will be made to protect your privacy and the confidentiality of your records.

SUPERVISION AND CONSULTATION

As a matter of good professional practice, we will consult with a colleague or our supervisor, in a confidential manner, when deemed appropriate. A requirement for clinical supervision includes the practice of confidential case discussion and treatment planning within an individual or group setting. This practice is a regular part of the work at CPFH.

PROFESSIONAL LIMITS

As Licensed Professional Counselors, and Licensed Marriage and Family Therapists in the State of Texas, we are qualified to provide only counseling, support and therapeutic services. Your decision to undergo therapy is yours to make, and does involve some risk to you. Some problems will resolve easily in therapy, while others may not. Some problems may even get worse before they get better, or not better at all. We do not provide prescription medical treatment. If we feel it is necessary or appropriate, we will refer you to a medical facility for consultation. If your condition results in thoughts, feelings or behaviors which may prove to be a danger to yourself or others, medical intervention may be required before counseling services are provided.

We are not available for court testimony, and do not provide legal services. We do not provide psychological testing, or forensic evaluations. In the case that you need medical or legal services we will encourage you to seek the appropriate professional. We also will attempt to provide you with appropriate referrals, when possible

Your therapist may be willing to communicate with you via these means in order to make or change your appointments, if you wish.
