

Ray County Library

Microfilm Requests

Informational Research Opportunity

The Ray County Library offers a unique opportunity for genealogy seekers. We have 100+ rolls of microfilm that contain local information. We are trying to provide services that can help our people reconnect with the past. To help with the demand of microfilm assistance and supplies, we have a fee for these services.

We can be of assistance by offering each individual up to 5 hours of assistance based on an hourly rate of \$15.00. Please note that if we are not able to find information regarding the request the hourly rate of \$15.00 still applies. Final findings can be supplied via email for no additional charge. Black and White copies are available at \$0.20 each. Research information can also be picked up at the library. If mailing copies exceeds standard postage, the additional cost will be your responsibility. Please note that once payment has been received, then we will promptly email, mail, or allow for pickup of items. Please specify your preference of email, mail, or pickup in your request.

Here at the Ray County Library we pride ourselves in helping the people of this community. Thank you for your interest in our genealogy resources.
