Chatsworth Brass

The Premier Range

We are confident our solid core Premier range of stair rods are the finest available anywhere in the world.

Our Premier range stair rods are the epitome of quality and style, they are manufactured using traditional methods, the finial is an integral part of the rod having been formed by hand individually on a lathe meaning every rod is one piece, made to measure and unique.

Remember to ask for the Premier Range from Stairrods UK.

LVT Nosing

This nosing is perfect for a situation where you have LVT fitted to a landing that leaves the bullnose visible. The LVT neatly slots in to the top recess forming an attractive transition from landing or step to the riser covering the bullnose in the process. Available in a range of colours for you to choose allowing you to either match or contrast with your existing door furniture or light fittings. Remember to ask for 'Premier Trims' from Stairrods UK

Lips

Premier Lips are a versatile trim with many uses. They are available in a range of sizes from small and discreet to big and bold and in a variety of colours to match your existing interior design.

The smaller lips can be used as a Scotia depending on the depth of the flooring. (Ask your retailer). All lips can be used to cover an untidy flooring or step edge and can be used to create a mat well in some circumstances.

The Skiffer Range

Our Skiffers corner protectors are an attractive solid brass casting designed to prevent damage to skirting boards and wall corners.

Pleasing to the eye and practical.

It is all too easy to scuff corners for example, when vacuum cleaning or moving furniture. Our corner protectors not only prevent this, but also add an attractive detail to a normally bland area.

Remember to ask for Skiffers from Stairrods UK

Please visit

www.stairrods.co.uk

To find your local retailer.

Bronze

Easystuds

Easystuds make a feature of newell posts and landings, especially when used in conjunction with Easybind and are a nice detail when used on half landings to continue the runner effect.

Easystuds can be used to solve the problem of visible underlay, as the carpet can be tacked to the riser, concealing the underlay, they can also be used to easily continue a carpet runner onto a half landing.

Remember to ask for Easystuds from Stairrods UK.
