

K.ESS

ARTIST BIO

K.ESS is the definition of a true R&B/neo-soul artist. As a singer and songwriter with a fresh sound, K.ESS is most celebrated for her honest lyrics, captivating melodies and soulful vocals.

Influenced by music greats such as Sam Cooke, Etta James, Al Green, Stevie Wonder and Michael Jackson; K.ESS developed a passion for music at four years old. During her teens, she gravitated toward the sounds of Whitney Houston, Mariah Carey, Beyoncé and Alicia Keys. Today, K.ESS is greatly inspired by Frank Ocean, Drake, SZA and Miguel.

Born in Melbourne, Australia, K.ESS was raised with traditional Greek values and Indian culture in the south-eastern suburbs. Being biracial, she embraced growing up in a diverse and ethnic community. Early on, K.ESS learnt to be comfortable in her own skin and is unapologetic for being different. With her exotic beauty mixed with her urban style, it's no wonder why K.ESS makes a statement.

K.ESS has been described as sounding like Mariah Carey for her sweet, whispery singing style; Alicia Keys for her power; and Rihanna for her edge and rhythmic vocal ability. Her soulful tones have also been compared to Alessia Cara with her vocal acrobats comparable to Beyoncé. In spite of comparisons, K.ESS has developed her own sound, blending her honeyed voice with her velvety resonance.

With her bold approach to her artistry, K.ESS has the knack of painting colours with her voice. Using her raw emotions together with her abstract lyrical compositions, she has that unique ability to captivate and transport listeners to the highest levels of consciousness.

Whatever happens, K.ESS will continue to express her true self and keep it 100% soulful! With her zest for life and creativity, K.ESS is destined to become the next global music sensation.
