WELCOME

The 5th Avenue Collection all started with the fabric. When I first saw that peacock print with all its vibrant colours; I was instantly enticed to buy the whole lot. The vintage, floral pattern just spoke to me. When I walked past the contrasting dotted print, I felt that same emotion... and together they created a symphony of colour and print.

My designs developed a parallel relationship with these fabrics. I applied vintage details to create a fashion forward silhouette, which can be seen in this collection of timeless pieces.

Further sourcing found the luscious satin silks, and the extravagant jade green tartan, which is certain to grab the attention in the board room!

Designing this collection was intrinsic to who I am! The tailored elegance and glamour of Lauren Bacall certainly influenced this collection.

I hope when you wear ALEXANDRA ZVI, you will feel invincibly ready to be whoever you choose to be.
