Start with Medicare basics

Make sure this plan is a good fit by reviewing the basics.

You're enrolled in Original Medicare, what's next?

Original Medicare is provided by the government and covers some of the costs of hospital stays (Part A) and doctor visits (Part B), but doesn't cover everything. You don't get coverage for prescription drugs or routine vision, dental or hearing care. Depending on your needs, you may want to add on more coverage. When it comes to extra coverage, you have options.

Original Medicare

Provided by the federal government

PART A  Helps pay for hospital stays and inpatient care

PART B  Helps pay for doctor visits and outpatient care

Add one or both of the following to Original Medicare:

Usually includes prescription drug coverage

May offer additional benefits not provided by Original Medicare

Medicare Made Clear™ brought to you by UnitedHealthcare®

Start with Medicare basics

This is a Medicare Part D Prescription Drug plan (PDP).

Here's how your Medicare Part D plan works.

What does it cover?

Original Medicare (Parts A and B) does not include prescription drug coverage. Medicare Part D plans cover certain prescription drugs. When comparing Medicare Part D coverage, check each plan's formulary (drug list) to make sure your drugs are included.

- The federal government sets guidelines for the types of drugs Medicare Part D plans must cover
- Each Medicare Part D plan decides which specific drugs it will cover and what members will pay
- Medicare Part D plans are available to those eligible for Medicare
- If you choose to enroll in a Part D plan, you can only do so through a private insurance company like UnitedHealthcare or other companies contracted with Medicare

When to enroll in a Medicare Part D plan.

Your Initial Enrollment Period (IEP) is 7 months long. It includes your birthday month, plus the 3 months before and the 3 months after your birthday month. Your IEP begins and ends one month earlier if your birthday is on the first of the month.

If you have creditable drug coverage through your employer or other insurance, you don't need to enroll in a Part D plan right away. Creditable drug coverage is coverage at least as good as you could get through Medicare Part D. You have a two-month Special Election Period to enroll in a Medicare Part D plan after losing other coverage. You could be charged a penalty if you go without creditable drug coverage over 63 days.

There's a Medicare Part D Late Enrollment Penalty.

If you don't join a Medicare Part D plan when you're first eligible, you may have to pay the Medicare late enrollment penalty if you enroll later. This is a fee that gets added to your Part D premium each month for as long as you're enrolled in a Part D plan.

Start with Medicare basics

Are you eligible for this plan?

You are eligible for a Medicare Part D plan if:

You are enrolled in Original Medicare Parts A or B (or both)

AND

Live in the plan's service area

Considerations for selecting the Part D plan that's right for you

Does the plan cover my prescription drugs?

- Enter your drugs into our online Drug Cost Estimator tool, EstimateDrugCostsAARP.com to determine the total annual drug cost for each plan.

Which plan will be most cost effective?

- When comparing plans be sure to consider all costs, including monthly premium, copays, deductibles and the tier your drugs fall into.

Are you willing to fill at a pharmacy in the plan's Preferred Pharmacy Network?

- Using a preferred network pharmacy helps ensure that you get the lowest drug cost.

Your drug plan coverage and costs

Make sure your drugs are covered.

Find out if your prescription drugs are covered by checking the Drug List in this Enrollment Guide or the online Formulary at [EstimateDrugCostsAARP.com](https://www.estimateDrugCostsAARP.com).

Know how much your drugs will cost.

The cost of your drug depends on 3 things: what tier the drug is covered in, where you are within the drug payment stages and where you purchase the drug.

Understanding drug tiers.

Many plans group covered drugs together by cost. These groupings are called tiers. Generally, the lower the tier, the less you'll have to pay.

Formulary (Drug List) Tiers

Tier 1	Tier 2	Tier 3	Tier 4	Tier 5
Preferred Generic	Generic	Preferred Brand	Non-Preferred Drug	Specialty Tier

Note: Not all generic drugs are low cost. There are generic drugs in each tier. Check the drug list for the tier of your specific generic drug.

Your Part D prescription drug costs.

With Medicare Part D prescription drug coverage, the amount you pay for prescriptions may change over the year. Here's why:

- Part D plans may have 4 coverage stages: annual deductible, initial coverage, coverage gap (also known as the donut hole) and catastrophic coverage.
- The amount of money you pay changes depending on the stage you are in.
- Many people never make it further than the initial coverage stage during the plan year. If you take a lot of medications, especially high-cost medications, you may move into the next stages.
- The pharmaceutical industry may increase the price of drugs at any time in a plan year and pricing for drugs may vary across pharmacies in the network.
- The coverage cycle starts over again on January 1 each plan year.

Once you're a member, you can easily track how close you are getting to the coverage gap stage by signing in to your account online.

Drug list

2018 Drug list

This is a partial alphabetical list of prescription drugs covered by the plan. This is not a complete list of the drugs we cover. For a more up-to-date list, call or visit us online. Our contact information is on the 3rd page of this book.

- **Brand name** drugs are in **bold** type. Generic drugs are in plain type
- Each covered drug is in 1 of 5 cost-sharing tiers
- Drug tier description:
 - Tier 1: Preferred generic
 - Tier 2: Generic
 - Tier 3: Preferred brand
 - Tier 4: Non-preferred drug
 - Tier 5: Specialty tier
- Your plan may have an annual prescription deductible
- For more cost-sharing and deductible information, see the Summary of Benefits in this book
- Some drugs may need Prior Authorization, Step Therapy or other coverage requirements

PA Prior authorization	The plan requires you or your doctor to get prior approval for certain drugs. This means the plan needs more information from your doctor to make sure the drug is being used correctly for a medical condition covered by Medicare. If you don't get approval, the plan may not cover the drug.
QL Quantity limits	The plan will cover only a certain amount of this drug for 1 copay or over a certain number of days. These limits may be in place to ensure safe and effective use of the drug. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.
ST Step therapy	There may be effective, lower-cost drugs that treat the same medical condition as this drug. You may be required to try 1 or more of these other drugs before the plan will cover your drug. If you have already tried other drugs or your doctor thinks they are not right for you, you or your doctor can ask the plan to cover this drug.
B/D Medicare Part B or Part D	Depending on how this drug is used, it may be covered by either Medicare Part B (doctor and outpatient health care) or Medicare Part D (prescription drugs). Your doctor may need to provide the plan with more information about how this drug will be used to make sure it's correctly covered by Medicare.
LA Limited access	Drugs are considered "limited access" if the FDA says the drug can be given out only by certain facilities or doctors. These drugs may require extra handling, provider coordination or patient education that can't be done at a network pharmacy.

**MED
Morphine
equivalent dose**

Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional edit is called a cumulative morphine equivalent dose (MED). The MED is calculated based on the number of opioid drugs prescribed for you over a period of time. This cumulative limit is required for all plans and is designed to monitor safe dosing levels of opioids for those individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

Stand-alone Medicare Prescription Drug Plans (Part D)

Medicare Prescription Drug Plan (PDP) — A stand-alone drug plan that adds prescription drug coverage to Original Medicare, some Medicare Cost Plans, some Medicare Private Fee-For-Service Plans, and Medicare Medical Savings Account Plans.

Medicare Advantage Plans (Part C) and Cost Plans

Medicare Health Maintenance Organization (HMO) — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. In most HMOs, you can only get your care from doctors or hospitals in the plan's network (except in emergencies).

Medicare HMO Point-of-Service (HMO-POS) Plans — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. HMO-POS plans may allow you to get some services out of network for a higher copayment or coinsurance.

Medicare Preferred Provider Organization (PPO) Plan — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors, providers and hospitals but you can also use out-of-network providers, usually at a higher cost.

Medicare Private Fee-For-Service (PFFS) Plan — A Medicare Advantage Plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you — not all providers will. If you join a PFFS Plan that has a network, you can see any of the network providers who have agreed to always treat plan members. You will usually pay more to see out-of-network providers.

Medicare Special Needs Plan (SNP) — A Medicare Advantage Plan that has a benefit package designed for people with special health care needs. Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes, and people who have certain chronic medical conditions.

Medicare Medical Savings Account (MSA) Plan — MSA Plans combine a high deductible health plan with a bank account. The plan deposits money from Medicare into the account. You can use it to pay your medical expenses until your deductible is met.

Medicare Cost Plan — In a Medicare Cost Plan, you can go to providers both in and out of network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare but you will be responsible for Medicare coinsurance and deductibles.

Other Related Products

Dental/Vision/Hearing Products — Plans offering additional benefits for consumers who are looking to cover needs for dental, vision, or hearing. These plans are not affiliated or connected to Medicare.

Hospital Indemnity Products — Plans offering additional benefits; payable to consumers based upon their medical utilization; sometimes used to defray co-pays/co-insurance. These plans are not affiliated or connected to Medicare.

Medicare Supplement (Medigap) Products — Insurance plans that help pay some of the out-of-pocket costs not paid by Original Medicare (Parts A and B) such as deductibles and co-insurance amounts for Medicare approved services.

Plans are insured through UnitedHealthcare Insurance Company or one of its affiliated companies, a Medicare Advantage organization with a Medicare contract and a Medicare-approved Part D sponsor. Enrollment in these plans depends on the plan's contract renewal with Medicare.

Please Read This Important Information

This is a Part D plan. It's designed to help pay the cost of prescription drugs. **Note:** If you have a Medicare Advantage plan:

- You may already have drug coverage
- You will lose that plan automatically when you sign up for a Part D plan. This means you would lose your medical coverage. This will affect both your doctor and hospital coverage as well as your prescription drug coverage. Read the information that your Medicare Advantage plan sends you and if you have questions, contact your Medicare Advantage plan. If you have an MA-only PFFS plan, you may still enroll in a PDP and will not lose your MA-only PFFS plan.

If you currently have health coverage from an employer or union, joining this plan could affect your employer or union health benefits. You could lose your employer or union coverage if you join this plan. Read the communication your employer or union sends you. If you have questions, visit their website, or contact the office listed in their communications. If there isn't information on whom to contact, your benefits administrator or the office that answers questions about your coverage can help.

Need help with your prescription drug costs?

If you have a limited income, you may be able to get Extra Help with your prescription drug costs. If you qualify, Medicare could pay for 75% or more of your costs, including monthly prescription drug premiums, annual deductibles, and coinsurance. Additionally, you won't have a coverage gap or late enrollment penalty. Many people are eligible for these savings and don't even know it. If you qualify for extra help with your Medicare prescription drug coverage costs, Medicare will pay all or part of your plan premium. If Medicare pays only part of your premium, we will bill you for the amount that Medicare doesn't cover.

For more information about this Extra Help, contact your local Social Security office, or call Social Security at 1-800-772-1213. TTY users should call 1-800-325-0778. You can also apply for Extra Help online at www.socialsecurity.gov/prescriptionhelp.

Please read and sign**By completing this form, I agree to the following:**

- This is a Medicare Prescription Drug plan. It has a contract with the federal government. This Prescription Drug coverage is in addition to Original Medicare. This is not a Medicare Supplement plan.
- I need to keep my Medicare Parts A or B. I must keep paying my Part B premium if I have one, unless Medicaid or someone else pays for it.
- I can only be in one Medicare Prescription Drug plan at a time—if I am currently in a Medicare Prescription Drug plan, my enrollment in this plan will end that enrollment.
- If I have prescription drug coverage now or if I get it from somewhere else later, I will tell the plan.
- I understand that I am joining the plan for the entire calendar year. If I want to change plans, I'll need to do so between October 15 and December 7. This is the Open Enrollment Period for Medicare Advantage **and** Medicare prescription drug coverage. I understand that there may be special situations at other times during the year in which I can leave the plan.
- This plan covers a specific area. If I plan to move out of the area, I will call my plan to switch to a plan in the new area. Medicare may not cover me when I'm out of the country. However, I have some limited coverage near the U.S. border. I understand that if I leave this plan and don't have or get other Medicare prescription drug coverage or creditable prescription drug coverage (as good as Medicare's), I may have to pay a late enrollment penalty in addition to my premium for Medicare prescription drug coverage in the future.
- I will get a Welcome Guide with an Evidence of Coverage (EOC). (The EOC is also known as a member contract or subscriber agreement.) The EOC will list services the plan covers, as well as the plan's terms and conditions. The plan will cover services it approves, as well as services listed in the EOC. If a service isn't listed in the EOC or approved by the plan, Medicare and the plan won't pay for it. If I disagree with how the plan covers my care, I have the right to make an appeal.
- I understand I must use network pharmacies except in an emergency. I have the right to make an appeal if I disagree with how the plan covers or pays for services.

Learn about ways to save on your prescriptions

Below are some helpful savings options for when your plan coverage begins:

Learn about and sign up for prescription home delivery. Once your coverage begins, sign up to get more savings by having your 90 Day supply of medication conveniently mailed to your home.

Review your drugs with your doctor. Bring a list of all the drugs you are currently taking with you to your doctor's appointments. Ask about generics and lower-cost options that may be available to you and if they might work for you.

Save \$15 or more on each prescription when you fill them at a Walgreens or Duane Reade retail pharmacy. To help you save money, UnitedHealthcare and Walgreens are working together to offer you low prescription drug copays when you fill your prescriptions at a Walgreens or Duane Reade retail pharmacy.

A UnitedHealthcare® Medicare Solution

Plans are insured through UnitedHealthcare Insurance Company or one of its affiliated companies, a Medicare-approved Part D sponsor. Enrollment in the plan depends on the plan's contract renewal with Medicare. UnitedHealthcare Insurance Company pays royalty fees to AARP for the use of its intellectual property. These fees are used for the general purposes of AARP. AARP and its affiliates are not insurers. You do not need to be an AARP member to enroll. AARP encourages you to consider your needs when selecting products and does not make specific product or pharmacy recommendations for individuals. United contracts directly with Walgreens for this plan; AARP and its affiliates are not parties to that contractual relationship.
