In these vivid and revealing sessions , a diverse collection of filmmakers talk in extraordinary detail and with amazing candor about making their first films. Each session focuses on a celebrated debut and tells the inside story of the film's creation. Along the way, every aspect of the movie industry is explored-from writing the script and raising the money to casting the actors and assembling the crew, from shooting and editing to selling the movie and screening it. These sessions are not only memoirs; but each one is also an emotional journey in which the filmmaker relives the pain and elation, the comedy and tragedy, of making their first short and/or feature film.
