Number of gallons or acre feet intended to pump yearly\_\_\_\_\_

**Water Rights Ownership**

- 100 %
- Partial – What Percent \_\_\_\_\_
- None

**DRILLER**\_\_\_\_\_

I certify that this well will be drilled and equipped to produce less than 25,000 gallons per day\_\_\_\_\_ (This well will be considered a production well and will be governed by production well rules if it is drilled and/or equipped to produce more than 25,000 gallons per day)

All new wells must be registered by the well owner, well operator or water well driller prior to being drilled. Registration may be by mail or telephonic document transfer, using a form provided by the District. The district staff shall review the registration and make a preliminary determination on whether the well meets the exclusions or exemptions of the District and shall inform the registrant of their determination within **15** business days. If the preliminary determination is that the well is excluded or exempt, the registrant may begin drilling immediately upon receiving a copy of the approved registration.

It shall be a violation of these rules for a water well driller to drill any well without the approved registration form on the site of the drilling operation.

I agree that this well will be drilled within ten (10) feet of the location specified in this Application, and not elsewhere, and in all events in compliance with the spacing requirements of the Groundwater Conservation District, of which I have been shown a copy. I will furnish the District the completed driller's log within three weeks after the completion of this well and prior to the production of water. The driller's log will include a plat showing the wells location by reference to a metes and bounds survey or by GPS coordinates. I hereby certify that I have read the foregoing statement and to the best of my knowledge and belief, all data contained in the Application are true and correct.
