Sign up to our ninth ICE Immersion Series, *Inviting the land to shape and move us*, for a unique international immersion workshop. Facilitated by award-winning artist and choreographer Santee Smith (Mohawk Nation, Six Nations, Canada) - the exchange is about process - it's exploratory, collaborative and presentational. It is a safe forum to ask questions, challenge one's own creative process and explore uncharted artistic territory; explore inner and outer landscapes; to play and reflect.

Weaving performance, video and music, participants will explore ways of activating and responding to our interdependency to the land, re-connect to cultural memory, create works generated from the body, land and place.

Workshop will be held at spectacular Amomoxтли Hotel & Spa in Tepoztlán.
