Spirit gum

Nose wax - for brains

Liquid latex

Plastic wrap

Assorted makeup

Paper plates

Cotton pads

Prop fake eye

## **Fake Intestines**

Natural color /sheer white/gray pantyhose and trim the feet off then stitch one end close (could also use a hot glue gun). Fill the hose with cotton.. Draw "Veins" with a red marker

Twist your intestines and stitch them in various places to make them appear more realistic. Spray them thoroughly with clear varnish & let them dry. This will give them a nice glossy layer.

Soak on fake Blood in a small spritz bottle, and spritz in several areas to give them that freshly gutted look. Hang them from a torn shirt. Make sure to have one larger intestine with bumps to make it the colon that should be placed on the front of the intestines when hanging out the shirt.
