

TABLE OF CONTENTS

Introduction	1
Chapter 1– Food Science and Food Processing Defined	3
Types of Jobs for Food Scientists	4
Other Food Science Career Options	9
Burning Bridges – Don't do it!	10
What do you think?	11
Chapter 2 – A Chemistry and Science Primer	15
Elements and the Periodic Table	15
Charges and Mass	17
Chemical Bonding and Bond Strength	18
Molecular Weight	19
Temperature, Mass, and Length Measurements	20
Solutions: Molarity vs. Molality	21
pH	22
Chapter 3 – Education	23
Curriculum	23
Goals	26
Experiences While at School	26
Summary	28
What do you think?	29
Chapter 4 – Food Processing and Food Preservation	35
My Philosophy	36

An Example of Food Processing	37
Putting It All Together	44
What do you think?	47
Chapter 5 – Proximate Analysis	49
The <i>Nutrition Facts</i> Food Label	49
What do you think?	53
Chapter 6 – Water	61
Bipolar in nature	61
Water Activity - a _w	62
Water Density	63
The Formation of Water Ice	63
Implications in Food	64
Experiments: Let's Make A Mess!	66
Chapter 7 – Carbohydrates	75
Carbohydrate Structure	76
Sugars	77
Starch	78
Experiments: Let's Make A Mess!	82
Sweetener Source	85
Solubility	85
Flavor	85
Sweetness Rating	85
Sucrose	85

Fructose	85
Corn Syrup	85
Dried Potato Starch	88
What do you think?	91
Chapter 8 – Protein	93
Structure	93
Animal Proteins	95
Experiments: Let's Make a Mess!	97
What is Fat?	109
Chapter 9 – Fat	109
Fat's Role in Food	111
Experiments: Let's Make A Mess!	114
Summary	117
Conclusion...Or The Beginning!	119
