PACKAGE DESIGN

CAD Design

Our experienced staff will provide onsite consultation and evaluation for your particular packaging application. It is important for us to educate the customer as to what materials and manufacturing methods are available for their specific application and budget.

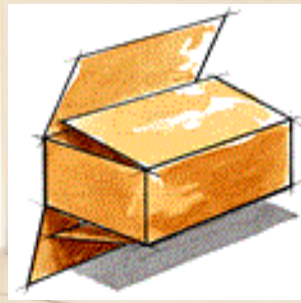

The design process is greatly enhanced by the use of CAD software specifically tailored to the corrugated industry. A full library of industry standards is available, as well as the capability to create custom designs to fit unique packaging requirements for our customers. The cad design is then transferred to our Data Technology sample table where the designed box is scored and cut. The box structure is reviewed to make sure tolerances and fit are correct. The sample is presented to the customer for final approval before production is started.

BOX STYLES

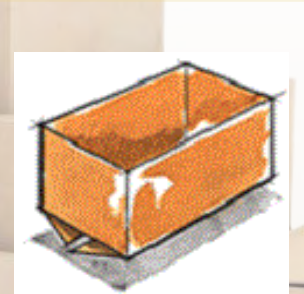

Below are most common box styles we manufacture..

RSC – Regular Slotted Carton

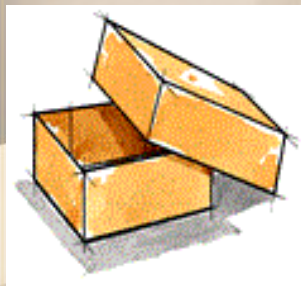

FOL – Full Overlap Slotted Carton

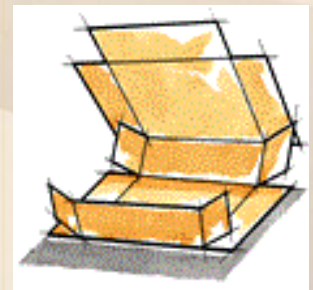

HSC – Half Slotted Carton

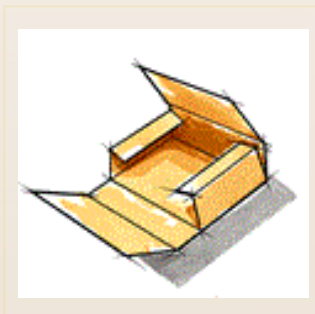

OSC – Partial Overlap Slotted Carton

Telescoping- Two piece Carton

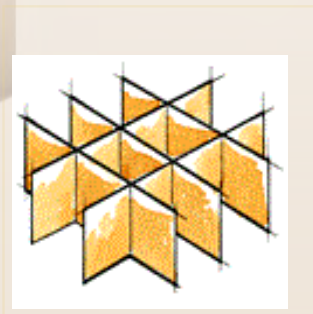

FPF – Five Panel Folder

OPF – One Piece Folder

Die Cut

Partition

CUSTOM PACKAGING SOLUTIONS

Custom Boxes

Making custom boxes is our specialty. From slotted boxes to die cuts, from one box - to a truckload, we make any size, shape, and style. Different grades (singlewall, doublewall, and triplewall) and color stocks (kraft, white, and custom colors) are available. Different printing options are available: from single-color direct imprint, to (up to) four-color combination.

CUSTOM PACKAGING SOLUTIONS

Folding Cartons

Folding cartons are printed in full color using offset printing techniques to better market the product while providing additional level of protection. Folding carton are available in standard styles as well as custom designs.

CUSTOM PACKAGING SOLUTIONS

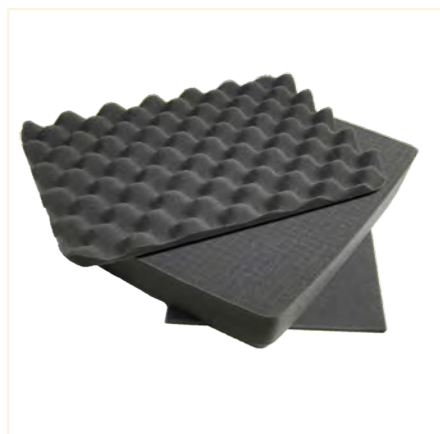

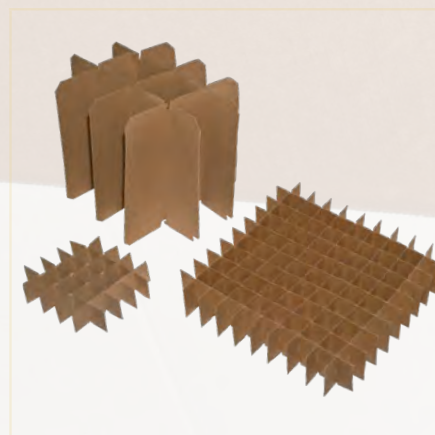

Corrugated Inserts

Corrugated is an excellent bracing and puncture resistant material. In many cases a corrugated design can effectively secure a product during shipment. Corrugated die cut inserts are specifically designed to hold the product securely in place. Partitions can be used to divide the interior volume into smaller cells where products can be placed. Corrugated pads and sleeves are used to provide the extra protection.

Foam Inserts

We can create custom interior protective packaging for your product using foam. The two widely used types are Polyurethane and Polyethylene. Both are available in a variety of densities. Foam can be converted by means of die cutting to produce an exact fit around the product ensuring a highly effective means of shock absorption and cushioning. Foam can be used in combination with corrugated to produce highly protective inserts.

Heavy Duty & Specialty Containers

We offer boxes that are capable of supporting the heaviest and largest products like engines, machinery, medical equipment and appliances. For these loads double wall and triple wall corrugated board is used. We can design and build a specialty container for your domestic and international shipping needs that uses a combination of wood and corrugated that is comparable in strength to a completely wooden crate but at a lesser weight.

Government Grade Board (V&W Board)

We are able to manufacture government and military-grade boxes designed to transport sensitive equipment subjected to high humidity, outdoor, long-term storage environment. Weather-resistant government-grade cardboard is used in this application.

PACKAGING MATERIALS

SINGLEWALL BOXES

Part Number/ID	L X W X D	QTY / BUNDLE
SB6C	6 X 6 X 6"	25
SB886	8 X 8 X 6"	25
SB8C	8 X 8 X 8"	25
SB10C	10 X 10 X 10"	25
SB1296	12 X 9 X 6"	25
SB12C	12 X 12 X 12"	25
SB161212	16 X 12 X 12"	25
SB16C	16 X 16 X 16"	25
SB18186	18 X 18 X 6"	20
SB2466	24 X 6 X 6"	25
SB241212	24 X 12 X 12"	25
SB241612	24 X 16 X 12"	10
SB361212	36 X 12 X 12"	15

Description:
All stock boxes are RSC (Regular Slotted Carton) style
Manufactured from 200#/32 ect singlewall - kraft
(brown)Sold in bundle quantities

Other sizes available upon request.

DOUBLEWALL BOXES

Part Number/ID	L X W	QTY / BUNDLE
SB8CDW	8 X 8 X 8"	15
SB14CDW	14 X 14 X 14"	15
SB18CDW	18 X 18 X 18"	15

Other sizes available upon request.

Description:
All stock boxes are RSC (Regular Slotted Carton) style
Manufactured from 275#/48 ect doublewall - kraft (brown)
Sold in bundle quantities

DIE CUT MAILERS-WHITE

Part Number/ID	L X W	QTY / BUNDLE
WM444	4 X 4 X 4"	50
WM754	7 X 5 X 4"	50

Other sizes available upon request.

Description:
Perfect for Shipping small-lightweight items Manufactured
from 200#/32 ect singlewall - White outside shipped flat and
fold together in seconds sold in bundle quantities

PACKAGING MATERIALS

CORRUGATED SHEETS & PADS

Part Number/ID	W X L	QTY / BUNDLE
SW4048 Single-Wall	40 X 48"	EA
SW4896 Single-Wall	48 X 96"	EA
DW74100 Double-Wall	74.5 X 100"	EA

Other sizes available upon request.

Description:

Ideal for use as a layering pad on pallets to disperse weight
 Manufactured from 200#/32 ect (singlewall) or 275#/48ect (doublewall)
 Great for void fill or keeping top of product free from dust during storage
 Sold per sheet

ACRYLIC CARTON SEALING TAPE

Part Number/ID	Description	ROLLS/CASE
ATC2110	2" x 110 YD 1.6 MIL Clear	36 RL
ATC3110	2" x 110 YD 1.8 MIL Clear	36 RL

Description:

Acrylic Tape is best for long term storage
 Acrylic adhesive retains its clarity over long periods - will not yellow
 Sold per case

REINFORCED GUM TAPE

Part Number/ID	Description	ROLLS/CASE
RT3500	3" X 500'	6 RL

Description:

Designed for fast permanent adhesion and superior strength
 Water activated tape is not affected by extreme hot or cold temperatures
 Sold per case

MASKING TAPE

Part Number/ID	Description	ROLLS/CASE
MT160	1" X 60	24 RL

Description:

Great at wrapping irregular loads
 Excellent cling provides great stability of loads
 Sold per case

PACKAGING MATERIALS

MACHINE GRADE POLY STRAPPING

Part Number/ID	Description	FT/RL
PS38W	3/8" white 9"X8" core	12900

Description:

Works great in tabletop, semi-automatic strapping machines
 Strapping is embossed for reduced splitting, greater flexibility and better seal joint
 Sold per roll

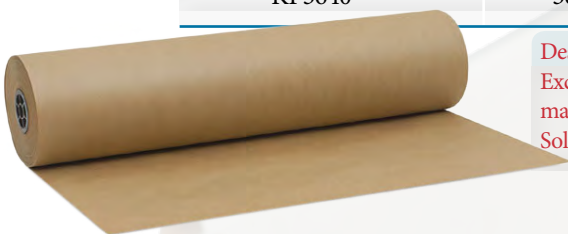

KRAFT PAPER

Part Number/ID	Width/ Basis Weight	FT/RL
KP1240	12" / 40 LB	765'
KP2440	24" / 40 LB	765'
KP3640	36" / 40 LB	765'

Description:

Excellent for wrapping boxes, parts or layering
 made from 100% recycled material
 Sold per roll

TISSUE PAPER

Part Number/ID	Description	Sheets/CS
TP1824	18" X 24"	4800

Description:

Crumples easily for packing into small cartons and mailers
 perfect for wrapping glass or other fragile items
 Sold per case

NEWSPRINT

Part Number/ID	Description	LBS/Bundle
NP2436	24" X 36"	50

Description:

Economical void fill
 unprinted newsprint made from 100% recycled paper
 Sold per bundle

PACKAGING MATERIALS

LOOSEFILL PACKING PEANUTS

Part Number/ID	Description	QTY/BAG
LSP20	White Loosefill Peanuts	20 Cu. Ft

Description:
Packing peanuts cushion contents on all sides
economical, fast and easy to use void fill
Sold per bag

Description:
Air bubble makes excellent cushioning and void fill
Protects against shock, abrasion and vibration
Sold per 48" bundle

BUBBLE WRAP

Small Bubble (3/16") 48" Wide Bundle X 500' Long

Part Number/ID	SLIT / PERF	RLS/BUNDLE
SB224	24"/12"	2

Large Bubble (1/2") 48" Wide Bundle x 250' Long

Part Number/ID	SLIT / PERF	RLS/BUNDLE
LB412	12" / 12"	4

Can be slit at other sizes, 12" perforation standard.

STRETCH WRAP (HAND GRADE)

Part Number/ID	Description	ROLLS/CASE
SW18100	18" X 1000' 100 gauge	4 RL

Description:
Great at wrapping irregular loads
Excellent cling provides great stability of loads
Sold per case

St. Pete Paper is committed to provide our customers with the best solutions to their packaging needs.
